Summary of Sewer Service Expenses
Summary of Recycled Water Service Expenses

EXECUTIVE SUMMARY

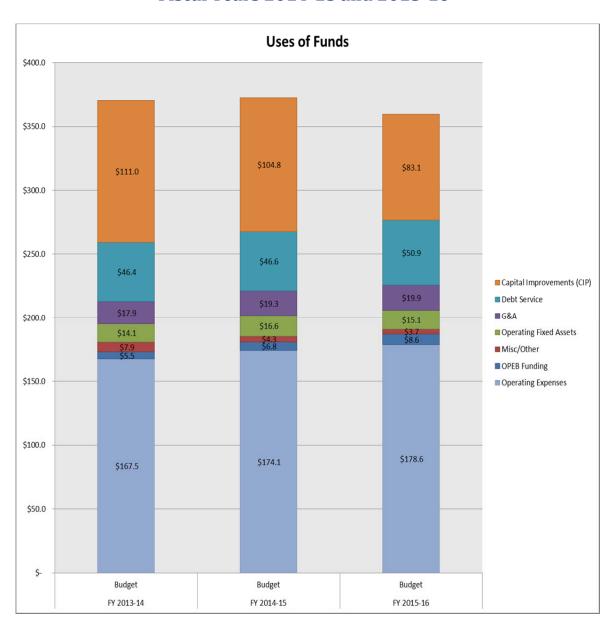

This year, staff has prepared a more comprehensive budget report, providing the Board and stakeholders a more complete view of the District's financial condition. The budget process also provides an opportunity to evaluate resources relative to the District's mission, values and beliefs, and strategic goals and objectives. Each department identified how their resources are deployed to achieve the District's strategic goals and objectives.

The Fiscal Years 2014-15 and 2015-16 Budget provides resources towards achieving the following strategic objectives of the District:

- Provide a safe and reliable water supply portfolio that achieves an optimum balance of imported, local and recycled water at a reasonable cost.
- Provide a safe, reliable, and cost-effective collection and treatment of wastewater and beneficial reuse of biosolids.
- Ensure financial stability and demonstrate responsible stewardship of public funds.
- Deliver the highest quality products and services in a cost-effective manner by leveraging workforce, technology and business resources and implementing industry-leading processes and practices.
- Become the employer of choice for high performing employees by sustaining a safe and ethical workplace that promotes innovation and provides opportunities for employee development to achieve job fulfillment.
- Engage in mutually beneficial community outreach and intergovernmental partnerships; and conduct constructive advocacy with all stakeholders including the federal, state and local legislators and agencies.
- Consistently meet or exceed customer expectations in all facets of EMWD's service.

Uses of Funds

The FY 2014-15 and 2015-16 Budgets are estimated to be \$372.5 million and \$359.8 million respectively, including operating expenses, capital expenditures, debt service, and postemployment benefit (OPEB) funding.

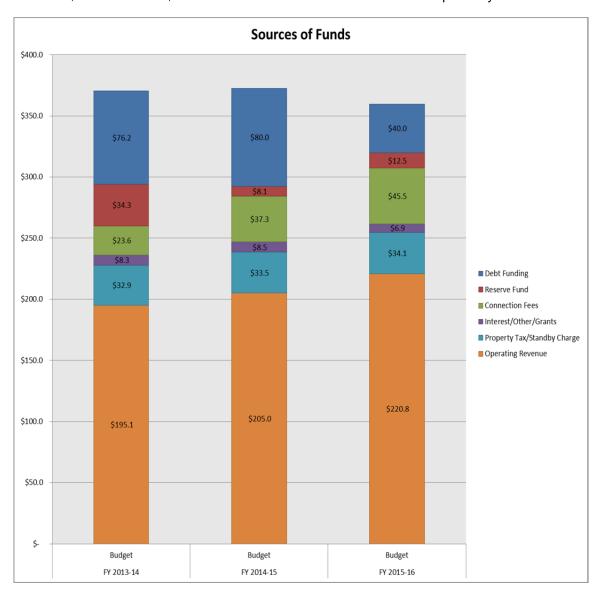

Significant factors driving the budget include:

- (a) Operating Expenses: Operating expenditures, which include operating expenses for water, sewer, and recycled services, are estimated to be \$174.1 million in FY 2014-15 and \$178.6 million in FY 2015-16, or 47 percent and 50 percent of total expenditures in FY 2014-15 and FY 2015-16 respectively. The operating expenditures for Water Services are estimated to be \$112.0 million in FY 2014-15, an increase of \$4.0 million (3.7%) from FY 2013-14, and \$114.9 million in FY 2015-16. The purchase of treated and untreated water from The Metropolitan Water District of Southern California (MWD) is estimated at \$61.5 million in FY 2014-15 and \$62.9 million in FY 2015-16, which is over half of the cost of water service. Water purchase expenditures are estimated to increase by \$2.2 million, (3.7%) from FY 2013-14 and by \$1.4 million, (2.3 percent) in FY 2015-16. The amount of water purchased from MWD is estimated to be the same at 71,128 acre feet in FY 2013-14, through FY 2015-16. Energy rates are expected to rise during the year. Additionally, there are increased energy demands due to deliveries of Colorado River Aqueduct (CRA) water in place of State Water Project water to accommodate MWD's request.
- (b) <u>CIP Expenditures:</u> The CIP is estimated to be \$104.8 million in FY 2014-15 and \$83.1 million in FY 2015-16. The total five-year CIP for FY 2014-15 through FY 2018-19 is \$487.3 million. The most significant projects in the CIP remain the Temecula Valley RWRF construction project, the Solar Photovoltaic Renewable Energy project, and the Perris II Desalter.
- (c) <u>Debt Service</u>: Debt service is anticipated to increase slightly in FY 2014-15 as a result of the completion of projects at the Moreno Valley RWRF treatment plant (SCATT and APAD projects funded with State Revolving Fund loans). To offset the escalating debt payments related to the SRF loans, the District will complete a series of debt restructurings and refundings in FY 2013-14 and FY 2014-15 to reduce the total debt service payments by \$3 to \$6 million per year. The District expects to issue \$120 million in additional debt to fund capital projects in FY 2014-15 and FY 2015-16. Debt service is projected to be \$46.6 million in FY 2014-15 and \$50.9 million in FY 2015-16.
- (d) General & Administrative (G&A): G&A expenditures are estimated to be \$19.3 million in FY 2014-15 and \$19.9 million in FY 2015-16. These expenditures represent the non-allocated administrative costs to support the enterprise.
- **(e)** Operating Fixed Assets (OFA): Operating fixed assets includes needed maintenance, vehicle and equipment replacements, and information technology replacements and enhancements. These expenditures are estimated to be \$16.6 million and \$15.1 million in FY 2014-15 and FY 2015-16 respectively.
- (f) <u>Miscellaneous:</u> Miscellaneous expenditures include miscellaneous fees and charges, special resource development and conservation projects and studies, and interest expense. These expenditures are estimated to be \$4.3 million in FY 2014-15 and \$3.7 million in FY 2015-16.
- (g) OPEB: Other post-employment benefit expenditure includes the District's contribution to pay future retiree's post-employment benefits, which is primarily medical and life insurance expenses. The District formed an OPEB Trust in FY 2012-13 and pledged 10 percent of ad valorem property taxes. Total OPEB contribution is estimated at \$6.8 million and \$8.6 million for FY 2014-15 and FY 2015-16 respectively. This includes the "pay as you go" components for retiree medical premiums, the stated contributions from ad valorem property taxes, and an additional \$1.5 million to fund the Annual Required Contribution (ARC).

Sources of Funds

The FY 2014-15 and FY 2015-16 budgeted receipts are estimated to be \$372.5 million and \$359.8 million respectively, of which about \$205.0 million, (55 percent) in FY 2014-15 and \$220.8 million (61 percent) in FY 2015-16, is made from operating revenue. Other significant funding sources include debt funding of \$80.0 million (22 percent) and \$40.0 million (11 percent) in FY 2014-15 and FY 2015-16 respectively, reserve funds of \$8.1 million (2 percent) in FY 2014-15 and \$12.5 million (3 percent) in 2015-16, property taxes and standby charges of \$33.5 million (9 percent) and \$34.1 million (9 percent) in FY 2014-15 and FY 2015-16 respectively, connection fees of \$37.3 million in FY 2014-15 and \$45.5 million in FY 2015-16, and interest/grant/other funds of \$8.5 million and \$6.9 million in FY 2014-15 and FY 2015-16 respectively.

Operating revenue in FY 2014-15 includes an assumed 4.4 percent increase in water sales and an assumed 6.9 percent increase in recycled water sales. Operating revenue in FY 2015-16 includes a 5.0 percent increase in water sales and a 7.1 percent increase in recycled water sales. To recover the increased cost of purchased water, the FY 2014-15 and the FY 2015-16 budgets include the pass-through of the MWD wholesale cost by an anticipated water commodity rate and daily service charge (DSC) rate increase of an assumed 3.8 percent effective January 1, 2015 and effective January 1, 2016. Additionally, a fixed capital charge of an assumed \$1.75 per month per water customer will become effective January 1, 2015 and another assumed \$0.50 fixed capital charge per month per water customer will become effective January 1, 2016. Similarly, to recover the escalating cost of sewer service, the budget includes a sewer rate increase of an assumed 4.5 percent effective July 1, 2014 and another assumed 4.5 percent effective July 1, 2015. Additionally, effective July 1, 2015 there will be a fixed capital charge of an assumed \$1.50 per month per sewer customer. Recycled water revenues are expected to increase by 6.9 percent in FY 2014-15 and 7.1 percent in FY 2015-16. All of the proposed rate increases have been properly noticed to customers to comply with California Proposition 218, and a public hearing is set for June 18, 2014.

Property taxes and standby charges are projected to increase in FY 2014-15 to \$33.5 million and \$34.1 million in FY 2015-16. Connection fees are anticipated to increase as a result of projected 3,539 and 4,191 new sewer connections and 2,067 and 2,448 water connections in FY 2014-15 and FY 2015-16, respectively. Connection fee rates are anticipated to increase by an assumed 2.6 percent effective January 1, 2015 and an assumed 3.0 percent on January 1, 2016. Interest income and grant revenue is anticipated to be \$8.4 million in FY 2014-15 and \$6.9 million in FY 2015-16.

It is anticipated that \$80.0 million in FY 2014-15 and \$40.0 million in FY 2015-16 in debt funding will be used to fund various projects in the CIP. Additionally, \$8.1 million and \$12.5 million in FY 2014-15 and FY 2015-16 respectively from reserves will be used to fund projects and other appropriations.

Reserves

Approximately \$8.1 million in FY 2014-15 and \$12.5 million in FY 2015-16 in reserve funds are projected to be used to fund CIP projects and operating fixed assets (OFA).

SUMMARY OF WATER SERVICE EXPENSES

The water service expenses for FY 2014-15 and FY 2015-16 are estimated to be \$112.0 million and \$115.0 million respectively. Expenses include cost of water purchases, treatment, pumping, storage, energy, replenishment, support costs, and allocated G&A. The most significant water expense is purchased water, which is projected to be \$61.5 million in FY 2014-15 and \$62.9 million in FY 2015-16.

Water Sales and Supply (Acre Feet or AF)

Estimated water sales are budgeted at 86,700 acre-feet (AF) for each of FY 2014-15 and FY 2015-16. Anticipated mild growth in service connections will result in an increase in domestic retail commodity demand for each fiscal year. However, the growth in commodity sales is expected to be offset by drought-related conservation efforts.

MWD commodity purchases are projected to remain relatively stable in each fiscal year. Water purchased from MWD for resale is budgeted at 68,600 AF for both FY 2014-15 and FY 2015-16. Settlement water purchased from MWD for groundwater replenishment is budgeted at 2,528 AF for both FY 2014-15 and FY 2015-16. Potable well production is estimated at 16,000 AF for each fiscal year. Desalter production is estimated at 8,500 AF for each fiscal year. Recycled water supply is estimated to be 40,000 AF for each fiscal year.

| | Budget | Preliminary Bio | ennial Budget |
|---------------------------|------------|-----------------|---------------|
| Acre Feet (AF) | FY 2013-14 | FY 2014-15 | FY 2015-16 |
| Purchased - MWD Treated | 49,500 | 49,500 | 49,500 |
| Purchased - MWD Untreated | 19,100 | 19,100 | 19,100 |
| Purchased Replenishment | 2,528 | 2,528 | 2,528 |
| Desalter Production | 7,500 | 8,500 | 8,500 |
| Well Production | 16,000 | 16,000 | 16,000 |
| Recycled Water Supply | 40,000 | 40,000 | 40,000 |
| Total | 134,628 | 135,628 | 135,628 |

Purchased Water Expense

Although the commodity volume is expected to remain relatively stable during FY 2014-15 and FY 2015-16, increases in the variable commodity rate and the fixed charge rate will cause an increase in the cost of purchased water. The total amount of water purchased from MWD is estimated at 71,128 AF in each fiscal year. The amounts of purchased untreated, treated tier 1, and replenishment water are 19,100 AF, 49,500 AF, and 2,528 AF respectively in each fiscal year. The purchased water expense is estimated based on MWD adopted rates, which will increase effective January 1, 2015 and January 1, 2016. The fixed charges from MWD include the capacity reservation charge (CRC) and the readiness-to-serve (RTS) charge which will change effective January 1 of each fiscal year. The projected purchased water cost is \$61.5 million in FY 2014-15 and \$62.9 million in FY 2015-16. The purchased water cost includes replenishment water cost of \$1.2 million for FY 2014-15 and \$1.2 for FY 2015-16. The purchased water cost is estimated to increase by approximately \$2.2 million in FY 2014-15 and \$1.4 million in FY 2015-16.

Water Service Expenses

Water service expenses are projected to be \$112.0 million in FY 2014-15 and \$114.9 million in FY 2015-16. Additionally, appropriations from rates to fund debt service and reserve obligations are projected to be \$11.5 million in FY 2014-15 and \$13.5 million in FY 2015-16. The cost of water service is projected to be \$123.5 million in FY 2014-15 and \$ 128.4 million in FY 2015-16, which includes the water service expenses and appropriations. Water system energy costs are expected to rise in FY 2014-15 due to an anticipated 10% rate increase as well as the aforementioned additional pumping demands due to deliveries of the Colorado River Aqueduct (CRA) water in place of State Water Project water.

SUMMARY OF SEWER SERVICE EXPENSES

The sewer service expenses are projected to be \$53.2 million in FY 2014-15 and \$54.5 million in FY 2015-16. This includes operating and maintenance (O&M) expense for collection systems, treatment, disposal, system energy, support costs, allocated G&A, and \$2.5 million in recycled water expenses. Additionally, appropriations from sewer rates to fund debt service and reserve obligations are projected to be \$18.8 million in FY 2014-15 and \$25.6 million in FY 2015-16. Appropriations include state revolving fund (SRF) loan reserve obligations of \$8.5 million in FY 2014-15 and \$8.5 million in FY 2015-16; capital contributions for PAYGO financing of \$4.6 million in FY 2014-15 and \$6.1 million in FY 2015-16; and OPEB contribution of \$1.2 in FY 2014-15 and \$1.9 million in FY 2015-16. Sewer system energy costs are expected to rise in FY 2014-15 due to an anticipated 10% rate increase. Additional energy demands will exist due to placing the new Plant 2 into operation at the San Jacinto Valley Regional Water Reclamation Facility and the newly modified Plant 2 at the Perris Valley Regional Water Reclamation Facility. The cost of sewer service, which includes the sewer service expenses and appropriations, is projected to be \$74.4 million in FY 2014-15 and \$82.5 million in FY 2015-16.

SUMMARY OF RECYCLED WATER SERVICE EXPENSES

The recycled water service expenses are projected to be \$6.5 million in FY 2014-15 and \$6.7 million in FY 2015-16. This includes operating and maintenance (O&M) expense for transmission systems, pumping facilities, storage, system energy, and support costs. Additionally, appropriations from rates to fund debt service and reserve obligations are projected to be \$2.0 million in FY 2014-15 and \$2.4 million in FY 2015-16. The cost of recycled water service includes the recycled water service expenses and appropriations and is projected to be \$8.5 million in FY 2014-15 and \$9.1 million in FY 2015-16.

WAGES AND BENEFITS

Labor expense is one of the largest categories of District expense and is comprised of wages and benefits. Total labor cost is projected to be \$78.4 million for FY 2014-15 and \$81.6 million for FY 2015-16. The FY 2014-15 budget is a 5.1% increase over the FY 2013-14 budget. The FY 2015-16 budget is a 4.2% increase over the FY 2014-15 budget. The budget includes 629 positions for FY 2014-15 and 631 positions for FY 2015-16, which a decrease of 4 positions in the first year and an increase of 2 positions in the second year.

The increase in labor cost is driven primarily by mandates such as the CalPERS required employer contribution rate, collective bargaining agreement terms (MOU), and medical premium increases.

Other post-employment benefits (OPEB) were formerly included in the wages and benefits but are now shown separately from wages and benefits.

Of the total labor cost, approximately 15% is charged to capital projects (CIP), approximately 32% is charged to operating services, and approximately 53% is charged to department expense.

Wages and benefits are shown by category and by department.

DEPARTMENT EXPENSE SUMMARY

Department expenses are those costs necessary to the function of each department. Labor cost in department expense includes an engineering overhead allocation. Approximately 53% of the total wages and benefits are charged to department expense. Department expense summaries are shown by category totals, by category detail, and by department.

DEPARTMENTAL BUDGETS

EXECUTIVE BRANCH

Mission Statement

The mission of the General Manager's office is to provide overall organizational leadership and to work with the Board of Directors in implementing policies, strategic goals and key objectives for the organization.

Roles and Responsibilities

- Collaborate with the Board on development of vision, policies and strategic direction for the organization.
- Pursue industry leading concepts for EMWD.
- Provide leadership for all employees in the following areas:
 - Quality assurance of all District products and services
 - > Implementation of organizational vision, policies and strategic plans
 - Prompt and accurate communications
 - Employee accessibility, mentoring and organizational development
 - Adherence to the District's values, beliefs and ethical work standards
 - Advocate for the District's safety culture
- Build external interagency relationships and provide leadership among agencies.
- Act in concert with the Board to effectively interface with federal, state and local elected and appointed officials.
- Provide industry leadership and advocacy on behalf of EMWD.
- Build community leader relationships.

Accomplishments in FY 2013-14

- Reorganized executive management structure to provide improved team coordination, effectiveness and succession planning.
- Maintained a leadership position in industry advocacy organizations such as ACWA, WateReuse and others.
- ♦ Achieved significant progress in executing the District's Triennial Strategic Plan as set forth in the accomplishments noted throughout the budget narratives herein.

Goals and Objectives for FY 2014-15 and FY 2015-16

• Continue to execute the District's Triennial Strategic Plan.

Budget Constraints FY 2014-15 and Significant Changes from Prior Year

The primary change to the Executive Office budget is derived from the transfer of three employees to other branches.

Budget Constraints FY 2015-16 and Significant Changes from Prior Year

There are no significant changes.

Position Changes

Three positions were transferred out of the Executive Department as a result of changes in the organization structure.

PUBLIC AND GOVERNMENTAL AFFAIRS

Mission Statement

The mission of the Public and Governmental Affairs department is to advocate the District's interests in the federal, state, and local legislative arenas and to engage the public and other District stakeholders through effective cross-media communication for mutual benefit.

Roles and Responsibilities

Ensure that proposed legislation and policy is reasonable, based on sound science, does not inadvertently impact District operations through unintended consequences and benefits the District; enhance the District's presence in Washington, DC; and Sacramento, CA; to secure funding for the District's capital needs.

Responsible for public affairs efforts including communication and outreach activities such as: managing the District's website, intranet and social media outlets; publishing customer newsletter; news releases, videos, brochures, slideshows, and other materials to assist public understanding of EMWD operations; serve as liaisons to cities, sub-agencies, and community groups; serves on committees and attends industry and professional meetings on behalf of the District; establishes objectives and directs the implementation of customer surveys and internal customer outreach needs; mitigate customer impacts of construction projects and creates outreach plans for high profile construction; responds to customer complaints and inquiries; work with key staff and stakeholders to coordinate and implement meetings, tours, and other events.

Accomplishments in FY 2013-14

- Introduced liability protection legislation regarding County Water Company.
- Developed and implemented a regional campaign to promote tap water, "Tap Into... Quality, Reliability, Value."
- ♦ Improved District efficiency by upgrading and improving www.emwd.org; increased opportunities for customers to conduct business with the District electronically and paperless.
- Established and launched an internal blog to improve timely and paperless internal communications.
- Applied for and was awarded the following honors:
 - CSDA: Excellence in Transparency Award;
 - ACWA: Emissary Award EMWD Nominee: Marion Ashley;
 - WateReuse: Recycled Water Staff person of the year EMWD employee: John Wuerth; and.
 - > ACWA: Best in Blue EMWD recognized as a finalist for metal theft prevention program.
- ◆ Laid foundation for launching paperless Consumer Confidence Report.
- ♦ Implemented an effective campaign to promote the BDCP, including numerous presentations and an insert in The Press-Enterprise.
- Conducted professional customer opinion survey, and two online customer surveys.
- ♦ Conducted a number of tours and briefings including IRRP tour for the watermaster, USBR, inaugural annual media tour, inaugural legislative tour, SWP, CRA, etc.
- Represented EMWD on eight water/waste water association communications and legislative committees.
- Produced a number of key publications including the bimonthly customer newsletter, the annual legislative report, the BDCP insert in The Press-Enterprise, and the Consumer Confidence Report.
- ♦ Hosted first annual Congressional lunch briefing in Washington, DC; co-hosted the State legislative reception in Sacramento, CA.
- Coordinated and launched the Riverside County Water Task Force Speakers series.

Goals and Objectives for FY 2014-15

- ♦ Ensure passage of SB 1130, legislation to limit liability related to the take-over of County Water Company.
- Increase policy participation and more towards a higher degree of direction participation in the development and advocacy of policy position at MWD, state and federal level.

- Enhance EMWD's visibility by increasing the number of Board/media events correlating to upcoming milestones, groundbreaking and dedications, etc.
- ♦ Educate the region on water related issues and enhance the role of the Riverside County Water Task Force by conducting/administering a speaker series.
- ♦ Improve two-way communications with the business community by developing and implementing a business outreach strategy.
- ♦ Advance internal communication initiative improving the use of the blog, holding events like annual employee photo contests, etc.
- ♦ Improve the image of EMWD through implementing a District-wide branding program.
- Develop and launch regional drought campaign, rate increases, recycled water campaign and other campaigns.
- Increase opportunities for conducting EMWD's business online.
- Expand video communications program to provide more 'how to' type information for customers.
- Cross-train in video communications program.
- Improve disaster preparedness.
- ♦ Host annual MWD tour event.
- Host annual Congressional lunch briefing in Washington, D.C.; co-host the State legislative reception in Sacramento.
- Maintain aggressive editorial and social media calendar.
- Produce regular/annual publications.

Goals and Objectives for FY 2015-16

- ♦ Host annual Congressional lunch briefing in Washington, DC; co-host the State legislative reception in Sacramento, CA.
- Develop and launch a regional conservation/education campaign.
- Increase opportunities to hold events in the District demo garden.
- Hold annual media tour.
- ♦ Hold open house.
- Hold annual MWD tour event.
- Conduct a follow-up customer survey.
- Increase stakeholder communications via social media.
- Produce regular/annual publications.
- Maintain aggressive editorial and social media calendar.
- Introduce state legislation to address issue of great significance to EWMD.

Budget Constraints FY 2014-2015 and Significant Changes from Prior Year

For FY 2014-15, a 21.4% increase occurred in the 54120 Direct Materials account due to the added cost of reusable bottles for the tap water fill station program. The tap water fill station has increased in popularity and several new events have been added to the tour schedule for the fill station. Another item adding to this variance is an additional \$5,000 for materials related to new facility dedication ceremonies. The District is scheduling several facility dedication events over the next two years.

Account 56160 Outside Services has a 21.5% increase that is also associated with the new facility dedication ceremonies with \$25,000 added for outside services costs which will cover equipment rentals and various other items needed for the events. An additional \$30,000 has been added for two major outreach messaging campaigns. The first campaign is to educate on the importance of recycled water, what it is, and broadcast it in-sync with drought messaging. The recycled water campaign would support the subsequent messaging campaign on Integrated Potable Reuse (IPR).

In account 56266 Consultants-Other a 200.0% increase is shown due to \$100,000 budgeted for Branding and the creation of a style guide for the District.

Budget Constraints FY 2015-2016 and Significant Changes from Prior Year

For FY 2015-16, an increase of 10.4% carries over form 2014-15 due to added costs of water bottles and the additional \$5,000 for materials related to facilities dedication events.

In account 56160 Outside Services the 33.2% increase is due to \$25,000 added for services related to facilities dedication events.

In account 56266 Consultants-Other, a significant decrease (66%) occurs after the completion of the Branding/Style Guide upgrade.

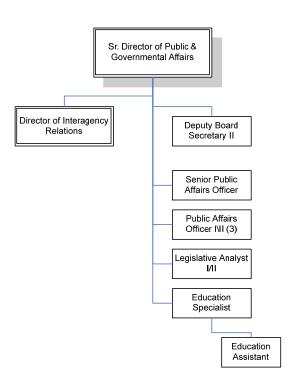

Position Changes

No changes are anticipated at this time.

EDUCATION DEPARTMENT

Mission Statement

The mission of EMWD's Education Program is to foster an understanding of water and wastewater issues and to promote wise water use among the future leaders of our community.

Roles and Responsibilities

The education department is responsible for planning, creating, managing, and implementing a comprehensive K-12 education program for the 11 school districts and private schools within in the 542 square mile service area.

Accomplishments in FY 2013-14

- Received a CPP grant to develop an activity book.
- ♦ Began work on the *Professor Purrkis Ponders Purple Pipes* activity book that will accompany the presentation and curriculum, which provides another building block in the water education program.
- Promoted the "Tap Into" campaign by offering it as the topic for the Write Off contest.
- ♦ Converted EMWD published storybooks into eBooks in September 2013, which permits anyone with a tablet-based device, access to download these files.
- Maintained the Savvy the Water Drop Facebook page, which allows customer interaction and feedback regarding the education program.

Goals and Objectives for FY 2014-15

- ♦ Develop three presentations (K-1, 2-3, 4-5) to bring greater awareness and acceptance of tap water as the drinking water of choice, using Write Off content winning stories.
- ♦ Complete Professor Purrkis Ponders Purple Pipes activity book.
- ♦ Convert EMWD story books into eBooks.
- Increase EMWD Education Facebook traffic by infusing social media information with inhouse EMWD education materials.
- Provide presentations, field trips, and materials to area schools to promote the water education message.
- Support Solar Cup event to promote stewardship of our natural resources.
- Develop timely topic (Backflow prevention) for Write Off contest program to promote water awareness among the youth.
- Host monthly birding tours to provide customers access to the benefits of the EMWD multipurpose constructed wetlands.
- Participate in community events to promote a better understanding of water-related issues.
- Participate in committees to promote water education in schools and the community.

Goals and Objectives for FY 2015-16

- Develop presentation to bring greater awareness and acceptance of backflow devices, using Write Off content winning stories.
- ♦ Convert EMWD story books into eBooks.
- ♦ Increase EMWD Education Facebook traffic by infusing social media information with inhouse EMWD education materials.
- Provide presentations, field trips, and materials to area schools to promote the water education message.
- Support Solar Cup event to promote stewardship of our natural resources.
- Develop timely topic for Write Off contest program to promote water awareness among the youth.
- Host monthly Audubon tours to provide customers access to the benefits of the EMWD multipurpose constructed wetlands.
- Participate in community events to promote a better understanding of water-related issues.
- Participate in committees to promote water education in schools and the community.

INTERAGENCY RELATIONS DEPARTMENT

Mission Statement

The mission of the Interagency Relations Department is to promote and sustain effective staff-level communication between the District and partnering agencies to optimize public service.

Roles and Responsibilities

The department is responsible for planning, organizing, directing, and implementing comprehensive efforts to enhance communications and coordination with key staff members of agencies within the District's service area, including water and wastewater districts, municipalities, and tribes. Participates in facilitating enhanced two-way communication and organizing the delivery of tailored services as required; provides expert professional assistance and guidance to District management on a wide range of interagency concerns and efforts; and performs related duties as assigned.

Accomplishments in FY 2013-14

- In coordination with Executive Management and the Engineering Department, implemented the Interagency Outreach Plan. This includes coordination of recurring meetings with the targeted stakeholders as well as tracking and completion of follow-up items identified in the meetings.
- ♦ Expanded the Youth Ecology Corps Program from one field crew of six youth to up to 30 young adults per year. Program enhancements include background checks, structured safety training, Microsoft Office-in-a-Day training, the addition of office position opportunities, and the doubling of office assistant internships from six to twelve week assignments.
- Monitored and reported on the San Diego County Water Authority Committee and Board meetings as well as those of their member agencies.
- ◆ Implemented the Water Bottle Filling Station Pilot Program in support of the "TapInto" Campaign, promoting the value of drinking water. In partnership with Valley-Wide Recreation and Parks and Metropolitan Water District, EMWD has sponsored the first known outdoor wall-mounted unit and freestanding units in the Inland Empire and one indoor chilled unit that will serve primarily middle-school students. Valley-Wide intends to include water bottle filling stations in future park specifications.
- Implemented the Portable Water Bottle Filling Station Program in support of the "TapInto" Campaign, promoting the value of drinking water. EMWD sponsors the only known non-profit portable, chilled, water bottle filling station in the Inland Empire and made the station available at nine community events over a three-month period in 2013 and continues to offer this program.

Goals and Objectives for FY 2014-15

- ♦ Develop and propose a Business Outreach Strategy that increases existing and potential business stakeholders' awareness and understanding of EMWD's purchasing policy principles, processes, and opportunities to do business with the District.
- Expand the Water Bottle Filling Station Pilot Program, targeting additional audiences such as higher learning and public recreation facilities.
- Expand the Youth Ecology Corps program to two additional youth opportunity centers within the District's service area.
- ♦ Assist the Riverside County Workforce Investment Board with their Youth Ecology Corps program expansion efforts with regional water agencies.
- Implement the Business Outreach Program and track and report progress.

Goals and Objectives for FY 2015-16

- ♦ Implement an expanded environmental education program that incorporates additional field demonstrations that help promote an informed understanding of water, wastewater, and recycled water issues among K-12 students, young adults, and EMWD workshop and tour participants.
- ♦ Finalize the Water Bottle Filling Station Pilot Program by reporting measures of success, findings, and lessons learned.
- Develop a report on the Youth Ecology Corps program, incorporating measures of success, findings, and lessons learned.

 Assist the Riverside County Workforce Investment Board as they seek to expand the Youth Ecology Corps program statewide.

Budget Constraints FY 2014-15 and Significant Changes from Prior Year

For FY 2014-15, there are no significant changes to the Interagency Relations Department budget. A proposed San Jacinto Valley Regional Water Reclamation Facility Wetlands Revitalization Project was included in the District's Capital Improvement Projects (up to \$1 million in FY 2014-15) and Facilities Maintenance.

Budget Constraints FY 2015-16 and Significant Changes from Prior Year

For FY 2015-16, there are no significant changes to the Interagency Relations Department budget. A proposed San Jacinto Valley Regional Water Reclamation Facility Wetlands Revitalization Project was included in the District's Capital Improvement Projects (up to \$1 million in FY 2015-16) and Facilities Maintenance.

Position Changes

No changes.

ADMINISTRATIVE SERVICES BRANCH

Mission Statement

The mission of the Administrative Services branch leadership is to provide overall organizational leadership and to work with the General Manager and the Board of Directors in implementing policies, strategic goals and key objectives for the organization.

Roles and Responsibilities

The Administrative Services Branch includes the departments of Finance and Special Funding Districts, Customer Service and Meter Services, Information Systems, and Purchasing, Contracts, Records Management and the Warehouse, as well as Human Resources, Safety and Risk Management. In FY 2013-14, this branch also incorporated the Grants and Loans Program and incorporated an additional staff of two direct reports.

Accomplishments in FY 2013-14

- Integrated branch departments into new organizational structure.
- Established policy principles and a long-term funding plan for the District's Other Post-Employment Benefits (OPEB) unfunded liability.
- Developed a debt restructuring plan to smooth future debt service obligations and maintain a level of debt service coverage that is consistent with highly rated utility credits.
- Developed an initial long-term financial funding model to plan for the funding of future infrastructure replacement and refurbishment capital needs in a balanced manner using reserves, rate revenue and public financings.
- Continued the deployment of additional automated metering infrastructure.
- Developed and implemented a biennial budget.
- Developed and implemented adjustments to rates and charges to address rate structure issues and noticing requirements for implementation of water shortage contingency plans.

Goals and Objectives for FY 2014-15

- Support the goals and objectives of each of the branch departments.
- Complete the execution of the debt refunding plan to smooth future debt service obligations and maintain a level of debt service coverage that is consistent with highly rated utility credits.
- Enhance the initial long-term financial funding model to plan for the funding of future infrastructure replacement and refurbishment capital needs in a balanced manner using reserves, rate revenue and public financings.
- Develop an information systems strategic plan and improve project governance using Districtwide prioritization.
- Implement technology solutions to streamline business functions in all branch areas.
- Deploy additional automated metering infrastructure to reduce costs.
- Mid-cycle budget adjustments as needed.

Goals and Objectives for FY 2015-16

- Support the goals and objectives of each of the branch departments.
- Continue implementation of the information systems strategic plan and improve project governance using District-wide prioritization.
- Continue to implement technology solutions to streamline business functions in all branch areas
- Deploy additional automated metering infrastructure to reduce costs.

Budget Constraints FY 2014-15 and Significant Changes from Prior Year

Most of the adjustments to this budget relate to the transfer of the Grants & Loans Program to the Administrative Services Branch.

Budget Constraints FY 2015-16 and Significant Changes from Prior Year There are no significant changes.

Position Changes

Two positions were transferred into the Administrative Services branch from the Executive Branch (Grants & Loans Programs) during FY 2013-14.

HUMAN RESOURCES DEPARTMENT

Mission Statement

The mission of the Human Resources Department is to advance workforce excellence. The strategic goal is to become the employer of choice for high performing employees by sustaining a safe and ethical workplace that promotes innovation and provides opportunities for employee development to achieve job fulfillment.

Roles and Responsibilities

- Promote means to attract and retain a high performing workforce
- Promote safety
- Promote leadership and employee development
- Promote ethical behavior and the District's values and beliefs
- Promote a professional and cooperative workplace culture

Accomplishments in FY 2013-14

- Successfully completed the best CalSTAR Recertification audit and closeout since program inception.
- Gained agreement with IBEW Local 1436 on a three-year contract that positions the district to better manage its long-term post employment benefit obligations.
- Significantly improved Safety Training Compliance and records.
- Initiated a multi-department review to upgrade the Human Resources/Payroll systems.
- ♦ Implemented Pay for Performance and Performance Management System improvements to assure recognition of employee high performance.
- ♦ Implemented HR best practices for administrative processes and legal compliance.
- ♦ Streamlined administrative efforts to reduce costs and improve processes involving family leave, voluntary employee benefits, and service awards.

Goals and Objectives for FY 2014-15

- Expand training opportunities with a focus on supervisors.
- ♦ Coordinate safety focused emergency preparedness training that provides regular exercises and individual employee instruction.

Goals and Objectives for FY 2015-16

- ♦ Implement effective HR/Payroll Information Systems capable of effectively and accurately accessing all human resource and payroll data in regular and ad hoc reporting consistent with appropriate security levels.
- ♦ Implement the base HR and benefits models including self-service modules that allow supervisors and employees to access and update essential workforce data and records.

Budget Constraints FY 2014-15 and Significant Changes from Prior Year

For FY 2014-15 and FY 2015-16, the Human Resources and Risk Management Department is in the process of conducting a major overhaul of existing Human Resources and payroll data management systems, which have been in place for nearly 25 years. This is needed to update and fully integrate these systems and implement key best practices.

- ♦ Consultants
 - ➤ HR/Payroll Consulting
 - > Employee benefits plans consulting
- ♦ Outside Services

Budget Constraints FY 2015-16 and Significant Changes from Prior Year

There are no significant changes from prior year.

Position Changes

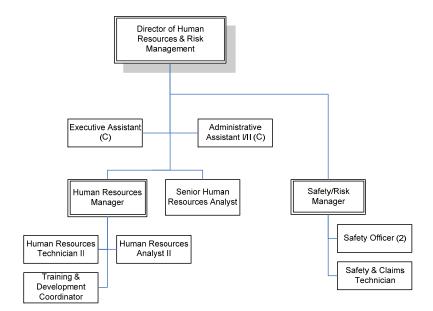

We will be adding College Worker Internships for graduate and undergraduate college students.

RISK MANAGEMENT DEPARTMENT

Mission Statement

The mission of the Risk Management Department is to provide expertise, guidance, training and support to employees and management in workplace safety, security, emergency management, and risk management.

Roles and Responsibilities

- ♦ Actively support the District's Safety Council, Joint Labor/Management Safety and Health Committee, and the District's Total Safety Culture.
- Ensure required safety training is readily available for all employees
- Controls the District's liability exposure through cost effective self and purchased insurance programs and claims administration.
- Facilitates a security program that safeguards the District's assets and personnel. The security program includes the efforts of contract security personnel, video surveillance, access control, and monitoring systems.
- Actively support management to ensure that the District's Emergency Operation Plans are maintained and exercised, with recommended improvements to the District's emergency preparedness and response capabilities conducted and tracked.

Accomplishments in FY 2013-14

- Successfully coordinated the District's effort for recertification as a Cal/STAR Agency.
- Arranged for completion of the Ergonomic Train-the-Trainer program which trained 15 of the District's employees to conduct ergonomic evaluations which will save the District the cost of hiring an outside consultant.
- Successfully assisted the Near Miss Task Force to launch the new Unsafe Condition/Near Miss Form.
- ♦ Collaborated with all departments in the District to review, revise and rewrite the Job Safety Analyses (JSAs) with the most critical JSAs completed in early 2014.
- Successful worked with the Safety Council to launch new leading indicators to include safety inspection completions. The initial numbers were below 50% but by early 2014 the completion rate was above 90%.
- Successfully conducted an emergency exercise to assist in the Emergency Management Response process.

Goals and Objectives for FY 2014-15

- Provide training on the new Unsafe Condition/Near Miss form in 2014-2015 and launch a new leading indicator tied to our Safety Concern/Near Miss reporting.
- Update the District's chemical inventory along with implementation of the New Chemical Order form and process by the end of December 2014. This new process will allow the District to keep a more accurate account of the chemicals being used by District personnel.
- Revise and update the District's Emergency Operations Plan.
- ♦ Conduct an inventory of the District's confined space locations, and their specific classification. This activity will be a District-wide effort by multiple departments and is to be completed by June 2015.

Goals and Objectives for FY 2015-16

- Revise and update the District's Pre-Use Analysis process, to include a comprehensive industry specific list of design considerations to eliminate potential hazards in new facilities/construction projects.
- Identify and develop individual employee roles and responsibilities in the area of emergency management and response.

Budget Constraints FY 2014-15 and Significant Changes from Prior Year

Recertification as a California Voluntary Protection Program STAR Site identified the need to:

- Expand the scope of the Industrial Hygiene Program to include monitoring for:
 - Silica exposure;
 - Carbon monoxide exposure; and
 - Hazardous noise levels (by facility and exposure group).

This budget includes the use of an Industrial Hygienist and/or other outside consultants to perform qualitative/quantitative analysis to satisfy these requirements.

- Provide additional training for employees in the areas of Hazard Recognition Awareness, Incident Investigation, and Root Cause Analysis.
- ♦ Security services were budgeted at \$670,000 in FY 2013-14. The fiscal year 2014-15 budget has been increased to allow for additional assignments at the Regional Water Reclamation Facilities and remote facilities that have been experiencing an increase in vandalism and theft.

Budget Constraints FY 2015-16 and Significant Changes from Prior Year

- ♦ The area of Emergency Management has been identified as an opportunity for the District to improve its current capabilities and to move the organization to enhanced posture of emergency management readiness.
- Security services budget has been increased allow for additional assignments at the Regional Water Reclamation Facilities and remote facilities that have been experiencing an increase in vandalism and theft.
- ♦ Conducting and inventory of the District's Confined Spaces will be time intensive and require the assistance from consultants.

Position Changes

For FY 2014-16, there are no changes in the number of authorized positions.

CUSTOMER SERVICE DEPARTMENT

Mission Statement

The mission of the Customer Service Department is to serve each customer in a timely, courteous, and effective manner and ensure that options are available to meet their respective needs.

Roles and Responsibilities

The department is responsible for accurately billing the District's customers on a monthly basis, as well as providing excellent customer service to internal and external customers via phone, written correspondence or walk-in. The department is also responsible for protecting our customers' personal identification, and collecting monies that are owed to the District. The department's Customer Service Field Representatives are responsible for restoring and disconnecting services for customers that have moved in or out and for nonpayment.

Accomplishments in FY 2013-14

- Continued high levels of customer satisfaction.
- Full implementation of Integration of Interactive Voice Response (IVR) systems.
- Successful integration of real time payments into customer information systems to allow better, more timely, service.
- On boarding and training of 5 new employees.

Goals and Objectives for FY for 2014-15

- ♦ Implement remote access to Customer Service Field Representatives for COINS billing systems.
- ♦ Automate domestic work orders directly to the field. Increase efficiencies by eliminating, streamlining, and refining various manual processes.
- With the onboarding of a new Collection agency; create and implement a refined collection process and action plan to ensure we are actively pursuing and collecting all monies owed to the district.
- Assist in customer outreach related to drought and water budget education.

Goals and Objectives for FY for 2015-16

- Increase efficiencies by eliminating, streamlining, and refining various manual processes.
- Automate Agricultural and manual billing processes.
- ♦ COINS reporting self-service reporting capabilities for District employees to access information.

METER SERVICES DEPARTMENT

Mission Statement

The mission of the Meter Services Department is to ensure that all water meters are read timely and accurately, in a safe and efficient manner. To integrate new technology into the daily business processes which can maximize efficiency for our customers and safeguard the safety of our employees.

Roles and Responsibilities

The department is responsible for gathering and importing reads for over 142,000 water customers. The department is also responsible for installing, repairing, and replacing water meters from 5/8" up to 42" in size. These include all system meters located at pumping and well facilities. Additionally, the department works with the New Business and Engineering departments to ensure that proper flow rates and water meters are applied to residential, commercial and agricultural water users.

Accomplishments in FY 2013-14

• Completed the Award and Discovery of phases for implementing a Meter Data Management System that will enhance customer information related to water consumption.

Goals and Objectives for FY 2014-15

- Increase efficiencies by eliminating, streamlining, and refining various work procedures, such as reading existing meters and installing meters for new development projects.
- Guide the process for the successful implementation of new water management efforts.
- ♦ Coordinate the successful implementation of the Meter Data Management System to all relevant business units.

Goals and Objectives for FY 2015-16

- Expand the Automated Metering Infrastructure (AMI) to reach a larger population of our water customers.
- Identify grant funding possibilities and develop a strong proposal to help offset costs of AMI expansion.

Budget Constraints FY 2014-15 and Significant Changes from Prior Year

For FY 2014-15, it is anticipated that large meter testing and repair will require increased funding and attention.

Budget Constraints FY 2015-16 and Significant Changes from Prior Year There are no significant changes.

Position Changes
For FY 2014-15, it is anticipated that two positions will be eliminated through attrition. For FY 2015-16, there are no anticipated changes in the number of positions.

FINANCE DEPARTMENT

Mission Statement

The mission of the Finance Department is to provide financial guidance, oversight, and timely and accurate financial information to customers while maintaining adequate controls and financial records in accordance with Generally Accepted Accounting Principles (GAAP), applicable laws, regulations, and District policies.

Roles and Responsibilities

The department is responsible for general accounting which includes accounts payable and receivable, fixed assets accounting, construction accounting, and payroll. The department is also responsible for financial reporting and analyses; fiscal planning, rate setting; cash, debt, and treasury management; and preparation of the annual budget. The department is also responsible for managing special funding districts.

Accomplishments in FY 2013-14

- ♦ Successfully prepared a Biennial Budget for FY 2014-15 and FY 2015-16
- ♦ Developed a Long Term Financial Model
- Restructured the District's debt portfolio including the 2008C COP, 2008D COP (2014A Refunding Bonds), and remarketed the 2012A and 2013A Revenue Bonds to lower annual debt service payments, increase coverage, increase debt capacity, and create a subordinate indenture with modern debt conditions and covenants.
- Special funding district activities include:
 - Engaged consultant to serve as Project Coordinator the administration of CFD activities, including the preparation of quarterly reports to the Board's Administrative Committee.
 - > Incorporated the Land Secured Policies into all joint funding agreements (JCFA)
 - > Issued two (2) CFD financings for approximately \$10 million in infrastructure funding,
- ◆ CAFR award. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Eastern Municipal Water District for its comprehensive annual financial report for FY 2012-13. This is the eleventh consecutive year that the District has received this award.

Goals and Objectives for FY 2014-15

- Reduce debt service costs by optimizing debt portfolio
- Increase efficiencies by eliminating, streamlining, and refining various transaction-oriented, manual processes.
 - > Evaluate processes in remittance processing (RPS),
 - Work with Purchasing Department to streamline procedures involving purchase cards (P-Cards), purchase order processing, and procure-to-payment processing
- Develop, with assistance from consultant, a Cost of Service Study
- Develop, with assistance from consultant, a Rate Study
- ♦ Prepare the FY 2014-15 comprehensive annual financial report and submit to the GFOA by December, 2015.

Goals and Objectives for FY 2015-16

- ♦ Increase efficiencies by eliminating, streamlining, and refining various transaction-oriented, manual processes.
- Develop, with assistance from consultant, a Budget Information System
- Prepare the FY 2015-16 comprehensive annual financial report and submit to the GFOA by December, 2016.

Modified 05/30/14

INFORMATION SYSTEMS DEPARTMENT

Mission Statement

Information System's mission is to assist the District's business units to achieve EMWD's strategic plan, goals, and objectives by adding value to key business processes through partnering in the application of information technology solutions, and by delivering the best quality products, services, and data in a timely, reliable, and cost-effective manner.

Roles and Responsibilities

The Information Systems Department provides technical leadership through collaborative efforts on a variety of information technology projects. Project services include project management, project reporting, business case development, vendor evaluation and selection, and vendor management. The department also provides ongoing system and user support to ensure that existing technology solutions are available when expected, and that users receive the assistance they require to fully utilize the solutions.

Accomplishments in FY 2013-14

- ♦ IVR Replacement
- ♦ BackTrack Upgrade Phase II Discovery
- Network Infrastructure Upgrade Discovery
- ◆ Field Mapplet v7 Upgrade Implementation
- ♦ BackTrack Upgrade Phase II Implementation
- ◆ Timecard Replacement Implementation
- ♦ VMware Upgrade
- Cyborg Upgrade
- Server Replacements
- Windows 7 Upgrade
- ♦ Maximo 7.5 Upgrade Discovery
- ♦ CityView Phase 1 Manual Replacement Implementation
- ♦ Facilities Data Base Replacement Phase 1 Booster Pumps
- ◆ Facilities Data Base Replacement Phase 2 Storage
- ♦ One GIS Phase 3 Data Entry & Maintenance Build
- System Uptime average of 99.94%
- ♦ Zero intrusions
- Zero enterprise virus outbreaks
- ♦ 1 system incident
- Completed 4,582 work orders

Goals and Objectives for FY 2014-15

- Network Core Upgrade.
- Meter Data Management System implementation.
- ♦ One GIS Project Phase 4.
- ♦ Human Resources / Payroll Replacement Consultant selection / services.
- Facilities Database Phase 3 Valves.
- CityView (Source Control, Plan Check & Agreement).
- Start Maximo Upgrade.
- COINS Work Order Automation.
- ♦ Hosted Exchange with e-Discovery.
- Start Human Resources / Payroll replacement discovery and implementation.
- Bottomline Upgrade.
- Kubra Services for CityView payments.
- Cyborg Upgrade.
- Hosted Digital Imaging service.
- Oracle Data Integrator implementation.
- Migrate GIS database to Microsoft SQL.
- Continue ongoing server replacement per lifecycle (as needed).
- Continue PC replacements per lifecycle.
- Sustain/Improve high performance measures, add a measure for project performance.

65

Complete requested work orders.

Goals and Objectives for FY 2015-16

- Finish CityView (Construction).
- Finish Maximo Upgrades.
- Implement EMIS Project Interface with Incident Module.
- Replace the LIMS system.
- Finish the replacement of the Human Resources / Payroll system.
- ◆ Upgrade Oracle e-Business Suite to 2.x (as required).
- Cyborg Upgrade (if needed).
- ♦ O & M Manual Upgrade (SharePoint solution).
- Implement a mobile GIS solution.
- RWRF Underground Facilities Map .
- Oracle Database Hardware Replacement.
- Continue server replacement.
- ◆ Continue PC replacements per lifecycle.
- ♦ Sustain/Improve high performance measures including project performance measure.
- ♦ Complete requested work orders.

Budget Constraints FY 2014-15 and Significant Changes from Prior Year

For FY 2014-15, there is an increase in consulting services for (1) a GIS consultant to assist existing staff with the GIS workload and (2) for database and data warehousing consulting expertise.

Budget Constraints FY 2015-16 and Significant Changes from Prior Year

There are no significant changes.

Position Changes

For FY 2014-15, the department will request three reclassifications and will eliminate two full-time positions. For FY 2015-16, there are no changes in the number of positions.

PURCHASING & CONTRACTS DEPARTMENT

Mission Statement

To meet the needs of the organization with the consistent supply of materials, goods, services, energy, equipment, and support processes provided in a responsible, cost-effective, and equitable manner.

Roles and Responsibilities

The Purchasing & Contracts department is responsible for procurement, contracts, contract administration, warehouse inventory and records management. The department is also responsible for general services such as copy center operations, tool room management, shipping and receiving, service contract administration, and the procurement of energy resources.

Accomplishments in FY 2013-14

- Revised and updated procurement policies and procedures.
- Successfully implemented the automated distribution of purchase orders and releases to vendors and suppliers.
- Received the Achievement of Excellence in Procurement award demonstrating excellence, innovation, professionalism, productivity, e-procurement, and leadership attributes.
- ◆ Completed the OMC/AC landscape revitalization project (Spring 2014).
- ♦ Achieved over \$1 million in cost savings and avoidance.
- Applied for and received \$850,000 toward upgrade of the District's Supervisory Control and Data Acquisition (SCADA) system, and \$308,000 from Southern California Edison in energy efficiency incentives.
- Reviewed with legal counsel and updated professional service agreement standard terms and conditions.

Goals and Objectives for FY 2014-15

- ♦ Implement a contract administration tool for managing requirements and contract performance.
- Implement workflow automation to streamline purchasing card (P-Card) approval and payment practices.
- Review opportunities to lead or participate in cooperative procurement.
- ♦ Implement an e-mail management system.
- Finalize cell tower negotiations for implementing two to three new installations.

Goals and Objectives for FY 2015-16

- Review purchasing terms, conditions and contract standards with legal counsel.
- Improve reporting capabilities supporting contract administration and budgeting.
- Retain consultants to audit P-card compliance and efficiencies and to analyze copier and copy center requirements for competition.
- Evaluate document scanning practices.

Department Summary

| Durch sing & Contracts | 2012-13 | 2013-14 | 2014-15 | 2015-16 |

Budget Constraints FY 2014-15 and Significant Changes from Prior Year

In FY 2014-15 the District's General Services/Copy Center budget for cellular telephone expense will increase by \$60,000 due to a change in carrier, deployment of new equipment and functionality, and consolidation of District-wide wireless card expense to the Copy Center budget. The Records Management department projects an increase of \$13,500 in outside services for document scanning.

Budget Constraints FY 2015-16 and Significant Changes from Prior Year

In FY 2015-16 the Purchasing department anticipates use of \$10,000 in consulting fees for purposes of auditing the District's Purchasing Card program, and \$10,000 to assist in analyzing copier and copy center needs and specifications in preparation for contract renewal and competition.

Position Changes

There are no changes in the number of positions for FY 2014-15 and FY 2015-16. The department anticipates two (2) reclassifications, Senior Records Management Technician and Senior Buyer, to be completed and effective for FY 2014-15.

Howell/Garcia

ENGINEERING AND OPERATIONS BRANCH

Mission Statement

The mission of the Operations and Engineering branch leadership is to provide overall organizational leadership and to work with the General Manager and the Board of Directors in implementing policies, strategic goals and key objectives for the organization.

Roles and Responsibilities

The Engineering and Operations Branch oversees the Planning, Engineering and Construction (PEC) Branch and the Operations and Maintenance (O&M) Branch.

The Engineering and Operations Branch is responsible for overall leadership and management of the O&M Branch which includes the water operations, water reclamation, and maintenance departments, as well as the PEC Branch which includes the engineering, planning, construction, environmental and regulatory compliance departments, as well the implementation of the District's Capital Improvement Program (CIP), and execution of other initiatives in support of advancing the strategic goals of the District.

Accomplishments in FY 2013-14

- ♦ The Engineering and Operations Branch was created in March 2014
- ♦ Completed the integration of Planning and Environmental/Regulatory Compliance into the expanded Engineering division
- Worked to advance the consolidation of the County Water Company into EVMWD and EMWD
- Managed the CIP program with a FY 2012-13 Budget of \$83 million consisting of 73 active projects
- Completed the design for Phase 1-Wine Country Infrastructure Project and advanced the project to construction
- Completed design and construction of the Solar Photovoltaic Energy Project for the District's Administrative Complex
- Advanced the Phase II Solar Photovoltaic Energy Initiative for multiple installation sites at the Regional Water Reclamation Facilities
- ◆ Completed the Indirect Reuse Program- Phase 1 Planning Study
- ♦ Completed the District's Energy Management Plan
- ♦ Completed design for Old Town Temecula Sewer Project and advanced the project to construction advertisement
- Completed the design for the Daily II Water Storage Tank and advanced project to construction
- Maintained adherence to Branch financial budget targets Branch-wide.
- Maintained water, wastewater, and recycled water systems reliability.
- Maintained adherence to environmental regulations
- Maintained a strong commitment to employee safety and achieving CalStar certification under Cal/OSHA's Voluntary Protection Program.
- Implemented reductions in overtime expenditures

Goals and Objectives for FY 2014-15 and FY 2015-16

- Support the goals and objectives of each of the branch divisions
- Continue to foster integration and collaboration of all departments within the branch, including Engineering, New Business Development, Field Engineering, Engineering Services, Planning, Environmental and Regulatory Compliance, Water Operations, Water Reclamation, and Maintenance.
- Improve Customer Satisfaction
- ♦ Enhance the Capital Improvement Planning Process
- Successfully manage and guide implementation of the FY 2014-15 and FY 2015-16 CIP Program
- Implement a refurbishment and replacement (R&R) model in support of the CIP planning and budgeting process
- Complete final design bid documents for the Wine Country Lift Stations
- ♦ Advance the Indirect Potable Reuse, Phase 2 Planning Study

- ♦ Support Planning to advance the East Valley Wells Water Operational Strategy and Feasibility of Centralized Treatment
- Prioritize Energy Management Plan Capital Improvement Program projects and advance to design
- Complete the design/build solicitation process for the Solar Photovoltaic Phase II initiative
- ♦ Complete preliminary design for various water booster pumping stations and related transmission pipelines
- ♦ Complete design of the TVRWRF 23-MGD Expansion
- ♦ Complete preliminary design of Quail Valley Sub Area 9
- ♦ Advance Recycled Water Facility Master Plan update
- ♦ Advance update of Recycled Water Conditioning Guidelines
- ♦ Continue to provide a reliable water supply to the District's customers through one of the worst droughts in California's history
- Explore new brine minimization water saving technology to better utilize existing groundwater resources
- ◆ Continue "best in class" environmental compliance
- ♦ Continue to improve cost control measures branch-wide

PLANNING, ENGINEERING & CONSTRUCTION BRANCH

Mission Statement

The mission of the Planning, Engineering, and Construction Administration department is to provide guidance and oversight to the Planning, Engineering, and Construction Branch and the District.

Roles and Responsibilities

The department provides overall leadership of the Planning, Engineering, and Construction Branch in support of advancing the Strategic Goals of the District.

Accomplishments in FY 2013-14

- ♦ Successfully worked with a diverse stakeholder group to advance the Wine Country Infrastructure Program
- ♦ Continued to leverage the integration of Planning and Environmental/Regulatory Compliance into the expanded Engineering Group
- Worked to advance the consolidation of the County Water Company into EVMWD and EMWD

Goals and Objectives for FY 2014-15 and FY 2015-16

- ♦ Continue to foster integration of all departments with the branch, which includes Engineering, New Business Development, Field Engineering, Engineering Services, Planning, and Environmental and Regulatory Compliance
- ♦ Improve Customer Satisfaction
- ♦ Enhance the Capital Improvement Planning Process

Department Summary

ENGINEERING DEPARTMENT

Mission Statement

The mission of the Engineering Department is to manage, guide, and support the planning and design of cost-effective, high-quality infrastructure facilities to meet the District's current and future water, wastewater, and recycled water demands and requirements.

Roles and Responsibilities

The department is responsible for implementing and managing the District's Capital Improvement Program (CIP). Services include preliminary design, final design, construction phase engineering services, and support services to other departments.

Accomplishments in FY 2013-14

- Managed the CIP program with a FY 2012-13 Budget of \$83 million consisting of 73 active projects.
- ♦ Completed the design for Phase 1-Wine Country Infrastructure Project and advanced the project to construction.
- ♦ Completed design and construction of the Solar Photovoltaic Energy Project for the District's Administrative Complex.
- ♦ Advanced the Phase II Solar Photovoltaic Energy Initiative for multiple installation sites at the Regional Water Reclamation Facilities.
- Advanced the design for the County Water Company of Riverside Consolidation Project.
- Completed the Indirect Reuse Program- Phase 1 Planning Study.
- ♦ Completed the District's Energy Management Plan.
- ♦ Completed design for Old Town Temecula Sewer Project and advanced the project to construction advertisement.
- Completed the design for the Daily II Water Storage Tank and advanced project to construction.
- Provided as-needed engineering support services to the Operations and Maintenance Departments.

Goals and Objectives for FY 2014-15

- ♦ Successfully manage and guide implementation of the FY 2014-15 CIP Program.
- Complete final design bid documents for the Wine Country Lift Stations.
- ♦ Advance the Indirect Potable Reuse Phase 2 Planning Study.
- ♦ Support Planning to advance the East Valley Wells Water Operational Strategy and Feasibility of Centralized Treatment.
- Prioritize Energy Management Plan Capital Improvement Program Projects and Advance to design.
- Complete the design/build solicitation process for the Solar Photovoltaic Phase II initiative.
- ♦ Complete preliminary design for various water booster pumping stations and related transmission pipelines.
- ♦ Complete design of the TVRWRF 23-MGD Expansion.
- Complete preliminary design of Quail Valley Sub Area 9.
- Advance Recycled Water Facility Master Plan update.
- Advance update of Recycled Water Conditioning Guidelines.
- Provide as-needed support services to Operations and Maintenance Departments

Goals and Objectives for FY 2015-16

- ♦ Successfully manage and guide implementation of the FY 2015-16 CIP Program.
- ♦ Complete the Indirect Potable Reuse Phase 2 Planning Study.
- ♦ Complete construction of North Trumble Pond Expansion Project.
- ♦ Complete update of Recycled Water Facility Master Plan.
- Provide as-needed support services to Operations Departments.

FIELD ENGINEERING DEPARTMENT

Mission Statement

The mission of the Field Engineering Department is to provide the highest quality Construction Management and Technical & Safety Inspection services in a cost effective manner to meet or exceed District standards for new construction.

Roles and Responsibilities

The department is responsible for managing and inspecting developer driven and capital construction projects. This includes enforcing safety regulations, receipt and review of bids, submittals, RFI's, change orders, insurance, certified payroll, and pay estimates to ensure all construction contract provisions are in compliance with District standards and California Public Contract Laws and Codes.

Accomplishments in FY 2013-14

- Successfully reduced the size of the existing developers tract file with a focus on providing substantially complete tract information to Engineering Services and Finance for capitalization of assets.
- Reorganized workload between Contact Admin Reps to the Inspection Admin shifting CFD project control resulting in elimination of one CAR position.
- Transitioned inspection staff to paperless reporting via Project Management software.
- ♦ Changed advertising Capital Improvement Projects from paper publications to Web based advertising eliminating publication costs associated with the bidding process.
- Reorganized the inspection staff workload to eliminate one Inspector position.

Goals and Objectives for FY 2014-15

- Maintain focus on reduction of developer tract files, and capitalization of installed systems.
- Finalize development of internal estimating process and utilization of project scheduling tools.
- Provide external users access to PMI via web based access; eliminating the need to acquire additional full-licenses, and furthering EMWD paperless goals.
- Review CA and CAR staffing hierarchy and update current levels.
- Provide scheduling tools to the CA's utilizing Primavera P6.
- Implement electronic transmission of submittals from Contract Management to eB Workplace; substantially minimizing duplication of Records Management staff to scan these documents into eB.

Goals and Objectives for FY 2015-16

- Continue focus on maintenance of developer tract files maintaining manageable levels.
- Provide EMWD with total scheduling capabilities eliminating need for specialty consultants on projects.
- Focus on the Change Order process to identify opportunities to improve efficiency.
- Finalize electronic transmission of all construction documents from Contract Management to eB Workplace; substantially minimizes cost and workload of Records Management staff to scan documents into eB.

NEW BUSINESS DEPARTMENT

Mission Statement

The mission of the New Business Department is to provide high-quality, cost-effective, and prompt services to customers, developers, and contractors in support of water, sewer, and recycled water utilization and expansion.

Roles and Responsibilities

The department is responsible for managing, coordinating, and processing conditional plans of service, plan checking, service agreements, utilities conflicts resolution, and financial participation agreements. The department is also responsible for due diligence efforts with developers to facilitate expansion of water, sewer, and recycled water facilities consistent with the District's master plans and operational requirements.

Accomplishments in FY 2013-14

- ◆ Conducted 89 Due Diligence meetings, for an estimated 20,928 Equivalent Dwelling Units (EDUs).
- ♦ Issued 22 Plans of Service to developers, for an estimated 4,658 EDUs.
- ♦ Completed water, sewer, and recycled water plan checks and construction administration for Industrial, Commercial, and Residential developments.
- ♦ Completed water, sewer, and recycled water service orders and construction orders, and construction administration for Industrial, Commercial, and Residential developments.
- ♦ Updated the Small Sewage Lift Station Guidelines and the Standard Drawings, and Specifications.
- Provided support to the Finance Department in the review of change order requests for CFD projects.
- ♦ Completion of City View Phase 1 enhancements including GIS interface, data portal, Outlook/email integration, and improved system performance.
- Coordinated and resolved utilities conflicts and facilities relocations with Cities and agencies within the District's service area.
- Completed plan checks and construction administration for developer lift stations.
- Generated Service Applications for commercial and industrial properties to capture change in tenancy that impacts Facility Participation Charges.
- Conducted review of approximately 40 developer projects for acquisition/reinstatement of projects.
- Supported implementation of OBI reporting for Fire Flow requests and production.

Goals and Objectives for FY 2014-15

- ♦ Advance City View Phase III: streamline plan checking, and service agreements.
- ♦ Continue developing OBI reporting from (Phase I) CityView data of activities and production
- Update the Recycled Water Landscape Irrigation Guidelines.
- ◆ Update the Water, Sewer, & Recycled Water Standards & Specifications.
- ♦ Complete demolition plans for the El Chimisal, Ramona Expressway, Perigord, Page Ranch II, and Westridge temporary lift stations.
- Complete plan checks for the following developer sewer lift and booster stations: Audie Murphy Regional lift Station, Monte Verde lift station, and The Cove Hydro-pneumatic booster station.
- Complete final design documents and construction of interagency conflicts.
- Develop and implement a tracking system for AD Credits.
- Update relevant Administrative Code sections.

Goals and Objectives for FY 2015-16

 Support City View Phase IV: Streamline construction, connections fees, and closeout processes.

- Advance Web portal for new service connection requests from existing facilities.
- Streamline plan check processes by providing engineering companies with a CAD toolbox which would include templates, borders, blocks, standard notes, and legends.
- Proceed with the demolition of the Westridge, Perigord and Page Ranch lift stations.
- Continue to update the Water, Sewer, & Recycled Water Standards & Specifications.
- Streamlining of developer mapping data acquisition.
- Create comprehensive CAD standards for Developers.

Budget Constraints FY 2014-15 and Significant Changes from Prior Year

For FY 2014-15, there is a labor budget variance from prior year to account for an increase of one position.

Budget Constraints FY 2015-16 and Significant Changes from Prior Year

For FY 2015-16, there is a labor budget variance from prior year to account for an increase of one additional position.

Position Changes

In response to increased development activity, an additional Plan Check Civil Engineer is proposed for FY 2014-15. Also, to support the Director of New Business, reclassification of an Administrative Assistant position to an Executive Assistant is budgeted for FY 2014-15. Anticipated continued development growth in FY 2015-16 necessitates addition of an additional Development Services Representative. The proposed additional positions are contingent upon a continued increase in development activity.

ENGINEERING SERVICES DEPARTMENT

Mission Statement

The Engineering Services Department provides tools and services for efficient design, construction and operation of District facilities as well as information and services to our key external and internal customer groups.

Roles and Responsibilities

The department serves in a supporting role to the Planning, Engineering, and Construction Branch and is responsible for Project Management of Facility Projects, Post-award administration of externally-funded projects, Continuous Improvement Coordination, Facility Mapping, Right of Way acquisition, and Facility Locations.

Accomplishments in FY 2013-14

- ♦ Acquired 39 acres for future capital facility.
- Successfully secured 440 right of way entries from the residents of the Enchanted Heights Community for conversion of Septic to sanitary sewer.
- ♦ Paper Reduction Scanned and indexed hard copy documents into the document management system and eliminated 16 file cabinet drawers.
- ◆ Processed 24 Claims for External Fund reimbursement totaling \$62 Million.

Goals and Objectives for FY 2014-15

- Implement the Real Estate Policy Principles.
- Identify and acquire property for future facility needs.
- Replace the GIS SmallWorld Mapping Tools with ESRI Mapping Tools.
- ♦ Increase efficiencies by eliminating, streamlining, and refining various paper-driven processes in the Department.

Goals and Objectives for FY 2015-16

- ♦ Upgrade Web Based Project Control System to current technology.
- Implement Digital Photo Archive for Facility Locations.
- Successfully replace scanning and plotting hardware.
- ♦ Deploy mobile GIS Viewer.

Budget Constraints FY 2014-15 and Significant Changes from Prior Year

For FY 2014-15, the Engineering Services Department will continue to support District efficiency gains through the One GIS effort and the identification and purchase of property in support of the twenty year Capital Improvement Plan.

Budget Constraints FY 2015-16 and Significant Changes from Prior Year There are no significant changes.

Position Changes

No changes.

PLANNING DEPARTMENT

Mission Statement

The mission of the Planning Department is to provide short and long range planning services to our internal and external customers to facilitate the needs of a growing service area with an eye on improving our operations, maintaining facilities, exploring new sources of supply, assuring system reliability, and promoting responsible use of our limited resources through conservation.

Roles and Responsibilities

The Planning Department houses the Conservation, Facilities Planning, Resources Planning, and Water Resources workgroups. This department is responsible for:

- Regional water supply planning.
- ♦ District-wide facilities master planning for water, wastewater, and recycled water.
- Meeting the requirements of the California Urban Water Conservation Council Memorandum of Understanding.
- Preparation of Urban Water Management Plans.
- Preparation of an annual prioritized capital improvement program for each product line.
- Preparation of water supply assessments for development projects.
- Special studies to evaluate projects in preparation for final design.
- Preparation of updated flow projections for water, wastewater, and recycled water.
- ♦ Maintenance, calibration, and use of the District's hydraulic and groundwater models.
- Implementing the best management practices (BMPs) required by the California Water Code Section 10631.
- Water rights protection (filing, maintenance, and defending).
- ♦ Meeting the demand reduction target required by Senate Bill x7-7 (20% by 2020).
- Data collection and reporting on groundwater/watershed management.
- Assisting customers in saving water in an efficient and cost effective manner.

Accomplishments in FY 2013-14

Conservation

- ♦ Used funding from MWD to incentivize the replacement of 94,527 square feet of turf through the turf replacement program.
- Rebated or provided incentives to replace 1,575 water guzzling devices with water saving devices for an estimated lifetime savings of 425 acre feet.
- Provided 10,387 high efficiency sprinkler nozzles with 65 Smart Controller incentives totaling 1,149 stations for commercial and large landscape customers through the large landscape assistance program.
- From July 2013 to February 2014, staff measured the landscape area for 4,621 customers.

Facilities Planning

- Developed prioritized CIP lists for water, wastewater collection, wastewater treatment, and recycled water.
- Completed the sewer flow monitoring and model calibration project for the Temecula Valley wastewater collection system.
- Completed the southern division sewer service area study, in conjunction with Lake Elsinore Municipal Water District and Western Municipal Water District.

Resources Planning

 Completed the local groundwater banking feasibility study identifying potential near and long term projects for local water banking.

Water Resources

- ◆ Closed out Proposition 13 IRRP Grant (including receipt of \$500,000 retention).
- Completed regulatory required documentation of modeling of salinity and nitrate in San Jacinto Upper Pressure Groundwater Management Zone.
- Significant progress on the Moreno Valley Groundwater Development Program, including obtaining one site and drilling.
- ♦ Continued the administration of the grant for the Stainless Steel Guidelines for Use in the Water and Desalination Industries project.

Goals and Objectives for FY 2014-16

Conservation

- ♦ Continue to maximize our conservation efforts to maintain our 20 x 2020 goals.
- ♦ Partner with SoCal Gas Company to incentivize 500 low income customers through their Energy Assistance Program by installing high-efficiency clothes washers, kitchen and bathroom aerators and low flow showerheads. Total lifetime savings estimated to be 272 acre feet.
- Work directly with our large landscape and commercial customers on MWD's new incentive programs: fitness center and the public agency assistance programs.
- ♦ Work with the New Business Department to create a zero turf program for New Development. Facilities Planning
- ♦ Complete sewer flow monitoring and model calibration project for the Moreno Valley wastewater collection system.
- Complete sewer flow monitoring and model calibration project for the San Jacinto Valley wastewater collection system.
- Develop prioritized CIP lists for water, wastewater collection, wastewater treatment, and recycled water.
- Develop a map tool for Engineering and New Business Development which provides remaining available capacity (in flow and equivalent dwelling units) for the Temecula and Moreno Valley wastewater collection systems.

Resources Planning

- Complete an optimization study of local groundwater banking and indirect potable reuse projects.
- ♦ Remain in compliance with MOU, BMP, and SBx7-7 requirements.

Water Resources

- ♦ Increase groundwater production to 2,000 acre feet in Moreno Valley as part of the Moreno Valley Groundwater Development Program.
- Identify potential potable groundwater resources in north Perris.
- ♦ Complete development of an updated groundwater model of the San Jacinto Watershed with the assistance of a consultant.
- Investigate and develop new opportunities for recharge facilities.
- Investigate and develop new opportunities for monitoring wells.

Department Summary

Budget Constraints and Significant Changes from Prior Year

Loss of Water Resources Technician in December 2013.

Significant variances in the proposed budget include the following expenses:

Two reclassifications will increase the budget slightly. The elimination of a Water Resources Tech II position will reduce labor costs. The budget includes possible adjustments for three flex positions.

Responsibility for groundwater monitoring for the east side has been assumed by the Hemet-San Jacinto Watermaster, but EMWD staff will continue to perform the majority of the work and be reimbursed by the Watermaster through annual Task Orders. Costs associated with groundwater monitoring for the west side have been removed from the department budget and added to the Special Projects budget.

Outside services/Consultants have been budgeted in the Special Projects budget for various projects.

Position Changes

The following changes are proposed for FY 2014-2015:

| | 6 Positions |
|-----------------------|-------------|
| Reclassification: | 0 Positions |
| Reduction (Unfilled): | 1 Position |
| Addition: | 0 Positions |

ENVIRONMENTAL AND REGULATORY COMPLIANCE DEPARTMENT

Mission Statement

The mission of the Environmental and Regulatory Compliance (ERC) Department is to provide responsible and resourceful environmental services to the District. Together, we are dedicated to support the District's full compliance with all regulations to minimized environmental liability, foster ethical relationships with our customers and proactively research environmental strategies to promote District goals.

Roles and Responsibilities

The ERC Department includes the administration staff that has oversight of the Source Control, Laboratory/Water Quality and Environmental Services Divisions and all of the Environmental Services Division staff. The administration staff provides management oversight of the three divisions and manages the CEQA/NEPA Environmental Documentation Program. The Environmental Services Division manages the regulatory compliance activities associated with all the air quality, wastewater collection and treatment, recycled water use, storm water management, biosolids management, and hazardous materials/waste regulations and mandates. The division is responsible for development, implementation, and communication of environmental strategies to meet regulatory compliance in these areas of responsibility.

Accomplishments in FY 2013-14

- Successfully amended the District's Master Reclamation Permit to include demonstration that the San Jacinto Lower Pressure management zone has a significant clay layer justifying the removal of salt and nutrient water quality limitations, and inclusion of the maximum benefit water quality objectives for the San Jacinto Upper Pressure management zone. These reduced the regulatory requirements for recycled water reuse in these management zones.
- Successfully completed the Salt and Nutrient Management Plan for the San Jacinto groundwater management zones as required by the Santa Ana Regional Water Quality Control Board and in compliance with the District's Maximum Benefit Plan.
- Jointly worked with Rancho California Water District on the Upper Santa Margarita Salt and Nutrient Management Plan as required by the San Diego Regional Water Quality Control Board
- Prepared a technical report and negotiated the associated administrative civil liability claim for a sanitary sewer overflow with the State Water Resources Control Board.
- ♦ Successfully completed 252 compliance reports, 209 non-compliance reports, and conducted 111 audits of the District's facilities.
- ♦ Successfully completely the first phase of the San Bernardino Kangaroo Rat habitat restoration areas to support the Integrated Recharge and Recovery Project.
- Successfully completed the 4th year of the habitat restoration area in Murrieta.
- Successfully completed eight (8) Mitigated Negative Declarations, seven (7) biological surveys, two (2) cultural monitoring agreements and over forty (4) notices of exemption as required by the California Environmental Quality Act (CEQA).
- Participated and partnered on regulatory rule development with regional groups, such as, SAWPA, SCAP, and SCSC.

Goals and Objectives for FY 2014-15

- Management of all the required environmental documents to support the Engineering Department's Projects.
- Continue to prepare the compliance and non-compliance reports for all regulatory permits.
- ♦ Continued to partner with Elsinore Valley Municipal Water District on the development of the Salt and Nutrient Management plan for the Upper Temescal management zones.
- New Industrial Storm Water Regulations are expected and the department will participate in the development process. Includes updates to the District's Storm Water Pollution Prevention Plans.
- Continue participate and partner with regional groups on regulatory development.

Goals and Objectives for FY 2015-16

 Management of all the required environmental Documents to support the Engineering Department's Projects.

- ♦ Continue to prepare the compliance and non-compliance reports for all regulatory permits.
- ♦ Continued to partner with Elsinore Valley Municipal Water District on the development of the Salt and Nutrient Management plan for the Upper Temescal groundwater management zones.
- Continue participate and partner with regional groups on regulatory development.

Mission Statement

The Laboratory and Water Quality Division is part of the Environmental and Regulatory Compliance Department. The mission of this Division is to serve the District by providing accurate and timely laboratory and water quality support that is based on professional, cost effective, and quality-assured practices to ensure the safety of our staff and customers.

Roles and Responsibilities

The department is responsible for analytical testing of District water, wastewater, and biosolids samples used to demonstrate compliance with State and EPA regulatory requirements. Water Quality staff oversees compliance with potable water monitoring and sampling along with adherence to permit requirements and all regulatory monitoring and reporting needs.

Accomplishments in FY 2013-14

- ♦ In 2013, the lab analyzed 16,910 samples and tested 102,355 constituents. This represents a 10.5% increase in testing over year 2012.
- ♦ Continued to automate test methods and procedures to improve efficiency and absorb the loss of one Laboratory Analyst from PARS retirement.
- Implemented and obtained certification for heated persulfate TOC testing to replace the labor intensive BOD test.
- Developed and obtained State certification for a new method for measuring nitrate.
- A new method for Total Nitrogen was developed and implemented for process control samples. TKN is determined by calculation. Compliance TKN are analyzed using the existing method and instrumentation thus further improving workflow and reducing Analyst time
- California lab accreditation was maintained by successfully passing blind performance testing samples.
- ♦ In lieu of maintaining expensive instrument service contacts costing over \$75K, the lab budgeted \$46,000 for parts and repairs to be used as needed. The projected expenses for this FY are \$9,500 for expenditures on instrument preventative maintenance and vendor service calls.

Goals and Objectives for FY 2014-15

- Work with District staff to complete changes to the laboratory facilities to accommodate future equipment needs, improve office space, and reduce electricity usage.
- Acquire and begin implementation of new LIMS software to reduce software administrative requirements, reduce ongoing costs, and provide additional opportunities for laboratory automation.
- Evaluate advantages to alternate methods for bacteria and coliform testing in water and wastewater. Purchase equipment, develop methods, and obtain State certification for new methods.
- ♦ Replace the existing mercury analyzer instrument with a newer model. The current instrument is eight years old.
- Obtain San Diego Regional Water Quality Board approval for reporting calculated BOD Equivalent values, thus further decreasing BOD testing requirements.
- ♦ Develop procedures and begin sampling and reporting for the Long Term 2 Enhanced Surface Water Treatment Rule by April 2015.

Goals and Objectives for FY 2015-16

- Obtain equipment for analyzing hexavalent chromium and perchlorate. Develop methods, obtain State certification, and begin performing these tests to reduce outside laboratory costs.
- Evaluate advantages to alternate methods for the measurement of metals in water and wastewater. Purchase equipment, develop methods, and obtain State certification for new methods.
- Develop paperless documentation procedures in the microbiology area of the laboratory.
- Develop procedures and provide training to Operations, Laboratory and Public Affairs staff on Revised Total Coliform Rule by April 2016.

Department Summary

| Laboratami & Water Ovality | 2012-13 | 2013-14 | 2014-15 | 2015-16 |

Budget Constraints FY 2014-15 and Significant Changes from Prior Year

The countertop space within the existing laboratory is becoming a challenge. To improve workflow and prepare for future instrumentation needs, the lab has proposed reorganizing the laboratory bench and office space. New improved methods for microbiology and metals testing are being evaluated and necessary equipment has been included in this budget.

Budget Constraints FY 2015-16 and Significant Changes from Prior Year There are no significant changes.

Position Changes

No changes.

SOURCE CONTROL DIVISION

Mission Statement

The mission of the Source Control Division is to enhance the beneficial use of recycled water, biosolids, and protect the integrity of EMWD's collection system while minimizing the cost of compliance with environmental regulations.

Roles and Responsibilities

The Division is responsible to ensure compliance with the pretreatment compliance program as required by law and in EMWD's discharge permits for the wastewater treatment plants. The purpose of the program is to eliminate discharges that could cause blockages or deterioration of the collection system, upsets at the RWRFs, the pass-through of contaminants to recycled water users or into Temescal Creek, or the limitation of biosolids reuse options. The program is designed to protect the staff, public, and environment. Program components include: oversight of industrial and commercial dischargers through permitting, inspections, training, and enforcement, regulation of businesses at plan check, and management of liquid waste haulers.

Accomplishments in FY 2013-14

- Adopted revisions to the Regulation for Non-Reclaimable Waste Line Use Ordinance 91, and the Inland Empire Brine Line Multi-jurisdictional Pretreatment Agreement between SAWPA and EMWD. These documents were revised to address issues identified within the OCSD/SAWPA remedial plan.
- Completed 42 Permitted Industrial User inspections
- Completed 83 Industrial User sampling events to ensure compliance with District limits.
- ♦ Completed 244 Fats, Oil & Grease inspections for the year.
- Completed 67 facilities with sand/oil interceptors.
- Source Control assisted SAWPA with the remedial plan resolution including attending meetings with OCSD, reviewing/revising core documents, and re-writing Brine Discharging permits.
- Assisted Engineering by completing 3 flow studies to ensure district collection system was adequately sized.

Goals and Objectives for FY 2014-15

- Source Control will work towards maintaining District compliance by inspecting all businesses with pretreatment equipment annually and inspecting/sampling all permitted industries according to Division standard throughout this budget period.
- ♦ Staff has been and will continue to support SAWPA and other agencies with the implementation of improvements to the brine line pretreatment program.
- Funds for public notices are included in this year's budget.
- ♦ Staff will continue to learn the OBI software and prepare to transition from Hyperion for the development of the annual report and compliance reports.

Goals and Objectives for FY 2015-16

- Source Control will work towards maintaining District compliance by inspecting all businesses
 with pretreatment equipment annually and inspecting/sampling all permitted industries
 according to Division standard throughout this budget period.
- ♦ Staff has been and will continue to support SAWPA and other agencies with the implementation of improvements to the brine line pretreatment program.
- Funds for public notices are included in this year's budget.

OPERATIONS & MAINTENANCE BRANCH ADMINISTRATION

Mission Statement

To define and set standards for compliance with regulatory mandates, actively promote the District's safety culture, and effectively manage costs for the Operations and Maintenance Branch.

Roles and Responsibilities

The department is responsible for providing leadership and direction for the Water Operations, Water Reclamation, and Maintenance departments. This consists of operation and maintenance of water distribution systems, water treatment and desalination plants, sewage collection systems, and water reclamation plants providing water service to approximately 136,000 retail customer accounts and sewer service to 228,000 customer accounts.

Accomplishments in FY 2013-14

- ◆ Excellent adherence to financial budget targets Branch-wide.
- Excellent water, wastewater, and recycled water systems reliability.
- Excellent adherence to environmental regulations Branch-wide.
- Major reductions in overtime expenditures.
- Maintaining a strong commitment to employee safety and achieving CalStar certification under Cal/OSHA's Voluntary Protection Program.

Goals and Objectives for FY 2014-15 and 2015-16

- ♦ Continue to provide a reliable water supply to the District's customers through one of the worst droughts in California's history.
- Explore new brine minimization water saving technology to better utilize existing groundwater resources.
- Continue "best in class" environmental compliance.
- ♦ Continue to improve cost control measures branch-wide.

Budget Constraints FY 2014-15 and Significant Changes from Prior Year

The primary constraints for the Branch in the coming fiscal year include:

- An estimated ten percent increase in the cost of electrical energy.
- An estimated ten percent increase in the cost of natural gas energy.
- ♦ Additional chemical costs necessary for operating the District's two water filtration plants on water supplied from the Colorado River which is higher in total dissolved solids.

- ♦ Additional chlorine costs necessary to treat Colorado River source water with chlorine to prevent the spread of quagga mussels.
- ♦ Additional costs associated with the start-up and operation of the new iron and manganese removal facility at the Menifee and Perris I Desalters.
- Additional costs associated with the start-up and operation of the new Plant 2 at the San Jacinto Valley Regional Water Reclamation Facility.
- ♦ Additional costs associated with the start-up and operation of the recently modified Plant 2 at the Perris Valley Regional Water Reclamation Facility.
- Additional costs associated with the start-up and operation of three new recycled water pump stations.

Budget Constraints FY 2015-16 and Significant Changes from Prior Year

The primary constraints for the Branch in the coming fiscal year include:

- An estimated four percent increase in the cost of electrical energy.
- An estimated four percent increase in the cost of natural gas energy.
- Additional costs associated with the continued use of Colorado River water in the District's water filtration and water distribution systems.

Position Changes

No changes.

MAINTENANCE SERVICES DEPARTMENT

Mission Statement

The mission of Maintenance Services is to provide comprehensive and cost effective support services for maintenance, repair, and improvement of the District's water, wastewater, and recycled water systems to optimize system performance and asset life.

Roles and Responsibilities

Maintenance Services is responsible for a wide range of maintenance activities throughout the District. The activities are divided into seven functional areas including: vehicle maintenance, wastewater collection system maintenance, mechanical maintenance, electrical maintenance, water distribution system and facilities maintenance, computerized maintenance and asset management, and maintenance engineering. Maintenance Services manages these activities through the asset management program, which includes preventative maintenance, corrective maintenance, predictive maintenance, improvement work, work order management, and asset performance metrics.

Additional information about the roles and responsibilities of each functional area are presented in the budget narratives for each maintenance department.

Accomplishments in FY 2013-14

- ◆ Completion of the Maximo upgrade discovery phase.
- ♦ Implemented a methodology for managing equipment outages in Maximo that integrates with the IOC Outage Notification System.
- Developed a report within OBI to provide end users access to Maximo labor and material costs. This allowed us to reduce our Maximo license cost by \$18,520 and \$3,704 in annual support fees.
- Developed a Near Miss Reporting application that will allow the District to manage and evaluate near misses.
- ♦ Completed radio tower installation at the East Holland Tank Site.
- ♦ Completed Sun City Lift Station Upgrade and Safety Improvements.
- Completed Design Phase of AC/OMC Energy Management System Replacement Project.
- ♦ Completed AC/OMC Office Lighting Retrofit.
- Completed TriOxyn odor control pilot project at four lift stations in the Hemet / San Jacinto sewer area.

Goals and Objectives for FY 2014-15 and FY 2015-16

- Complete the catalysts and exhaust piping retrofit on 13 Stationary Industrial Engines.
- ♦ Complete the pH facilities at the Reach 4 Recycled Water Pump Station.
- ◆ Complete OMC/AC Energy Management System (EMS) replacement.
- ♦ Complete the PVRWRF Communication Tower Installation.
- Complete the retrofit of the parking lot lighting at OMC/AC Building.
- Complete surge tank improvements at the Palomar Booster Station.
- ♦ Complete the Citric Acid Dosing System Installation at Reach 4 Dissipater.
- Complete the Air Vacuum Valves Replacement Project for the Winchester Recycled Water Pipeline.
- Complete Installation and Testing of NoxTech at TVRWRF.

Facilities Maintenance Operations

Operating expenses are presented below for the administrative facilities which comprise the OMC/AC headquarters, the Call Center, and the Repeater communication towers. The OMC shows an increase in materials and supplies which are needed for ongoing repairs and maintenance. The OMC shows a decrease in outside services which is due to the reclassification of security services to the Risk Management Department.

OMC Facility Department Summary

SHOP SERVICES DEPARTMENT

Mission Statement

The mission of Shop Services is to ensure the highest quality of service, efficiency, and reliability of fleet equipment, fueling facility, fabrication support, and internal crane operations possible at the most cost effective rate to District staff and the community through the implementation of full-range, in-house services and maintenance programs, in accordance with applicable laws, regulations, and District policies.

Roles and Responsibilities

Fleet Services is responsible for District fleet asset management including vehicle specification, acquisition/disposal, DMV licensing services, vehicle maintenance/repair, mandatory inspections/certifications, fueling site maintenance operations and the majority of fleet parts procurement.

The Fabrication and Machine Shop is responsible for various needed new fabrication or machine work required throughout the District. This includes new designs and fabrication of parts for obsolete equipment repair.

The Paint Shop provides vehicle body and paint repair along with any needed industrial sandblasting and coating of District equipment as needed.

The Internal Service Fund is comprised of the functions of fleet repair and maintenance; fuel procurement, storage, and distribution; and vehicle replacement and outfitting. Fund costs are comprised of two components: maintenance/service and capital replacement. Costs are reimbursed to the Internal Service Fund through charges assessed to user departments based on an assigned inventory of fleet units or by allocation of shared units.

Accomplishments in FY 2013-14

- Full AQMD, CARB, EPA, and CHP monitored DOT compliance with all rules and regulations.
- ♦ Purchased and up-fit vehicles for as much as \$8,524 per unit below the 2012 5-year lease estimates provided by Enterprise Fleet Management.
- Reduced the costs of vehicles up-fit by standardizing equipment of vehicles with similar duties and rebuilding or repurposing used attachments.

Goals and Objectives for FY 2014-15 and FY 2015-16

- ♦ Complete replacement of the EMWD large portable emergency generators by end of FY 15-16 before the AQMD mandated January 2017 deadline. This requires a new replacement strategy based on current and vendor predicted availability. Generator replacement represents \$4,460,000 of the Vehicle Capital Budget Summary for FY14-15 and FY15-16.
- Link Fuel Force and RTA software systems for complete vehicle cost monitoring within RTA.
- ♦ Implement a system with key control hardware that consolidates underutilized, assigned vehicles to a centralized pool. Allowing reduction of vehicles.
- ♦ Continue to perform utilization and maintenance cost studies to improve the District's vehicle use and replacement criteria.
- Replace all of the District's emergency generators before the AQMD mandated January 2017 deadline.
- Continue full compliance of all AQMD, CARB, EPA, and CHP monitored DOT rules and regulations.
- Work with District administration and consultants to develop CNG and other alternative fuel vehicle integration strategies. This will have to include major fueling system and maintenance shop upgrades before 2018 along with required changes for the interim.
- ◆ The Fueling System FY14-15 and FY15-16 Expense Budget includes provisions for renting a CNG fueling trailer until another system is installed.

Budget Constraints FY 2014-15 and Significant Changes from Prior Year

- ♦ Due to its volatility, the fuel cost budget for FY 2014-15 was kept flat versus the FY 2013-14 budget despite a favorable variance.
- ♦ Shifted some vehicle capital budget to vehicle rental costs through leasing of vehicles that do not require up-fit.
- Automobile insurance costs are expected to be lower in 2014-15 versus FY 2013-14.

Budget Constraints FY 2015-16 and Significant Changes from Prior Year There are no significant changes.

Position Changes

No changes.

COLLECTIONS SERVICES DEPARTMENT

Mission Statement

The Mission of the Wastewater Collections Division is to provide our customers with timely collection and disposal of wastewater in a safe, professional, cost effective, and environmentally sound manner.

Roles and Responsibilities

The division is responsible for the maintenance and repair of the District's collection system. This includes line cleaning, line repair, and response to customer problems concerning blockages and odor problems.

Accomplishments in FY 2013-14

- No lost time due to industrial accidents.
- Maintained an overflow spill rate of less than 1 per 100 miles.
- Completed rehabilitation of 50 manholes in the Temecula area collection system.
- Overtime has been kept below budget.
- Completed all service requests for vacuum services at the RWRFs without the need of outside services.

Goals and Objectives for FY 2014-15 and FY 2015-16

- Operate within approved overtime budget.
- Reduce overflows and continue to strive for zero reportable spills.
- Work internally with CMMS and IS to establish Line Cleaning Maintenance program.
- Increase number of CWEA certified staff within the Division.
- Rehabilitate 30 damaged manholes throughout the District.
- Perform root control in key areas of Moreno Valley and Temecula.

Modified 02/13/14

MECHANICAL SERVICES DEPARTMENT

Mission Statement

The mission of the Mechanical Services Department is to provide "best in class" mechanical service support while maintaining a high state of readiness and reliability for the District's water and wastewater facilities.

Roles and Responsibilities

The Mechanical Services Department is responsible for the installation, maintenance, repair, and servicing of mechanical equipment and machinery used in the production, treatment, storage, collection and distribution of potable, recycled, and wastewater systems.

Accomplishments in FY 2013-14

- ◆ Completed Well 29 rehabilitation project.
- Completed Well 85 rehabilitation project.
- Completed Well 83 rehabilitation project.
- Installed and tested new engine controller at Heacock Booster.
- Successfully, installed and tested the Tecogen engine emission controller at Heacock Booster.
- Achieved 75% compliance rating for engine emission testing.
- ♦ Installed and tested new replacement pumps at Lake Skinner 1 & 2 Lift Stations.
- Installed and tested new replacement pump at Sanderson Lift.
- Installed and tested newly rebuilt pump 1 for Mills Pumping Plant.

Goals and Objectives for FY 2014-15 and FY 2015-16

- Operate in approved overtime budget.
- Well 26 rehabilitation project.
- Well 17 rehabilitation project.
- Well 34 rehabilitation project.
- Heacock Booster engine & pump replacement project.
- Stanford & Acacia Pumping Plant spare pump project.
- Goodhope I Booster Pump1 replacement project.
- Stoney Mountain Lift pump replacement project.
- Diana Lift pump replacement project.
- Warm Springs Lift pump replacement project.
- Front Street Lift pump replacement project.
- Install and test new scum removal system at Sanderson Lift.
- Install and test new DCL siloxane removal system at SJVRWRF.
- ◆ Engine emissions tests 75% or greater with passing results.

Budget Constraints FY 2014-15 and Significant Changes from Prior Year

For FY 2014-15, variances to proposed tool, overtime budgets by others. Challenges facing the department include the impacts of water rationing for potable and recycled water. Normal routine work activities may not be completed as scheduled, which could negatively impact the overtime budget. Additional constraints are long lead time on some parts and material. Additional expense to expedite parts and material shipments are required. Regulatory rules and regulations from agencies such as AQMD often result in additional challenges for the Mechanical Services Division and higher O&M costs to the District.

Budget Constraints FY 2015-16 and Significant Changes from Prior Year There are no significant changes.

Position Changes

No changes.

ELECTRICAL SERVICES DEPARTMENT

Mission Statement

Our Department goal is to provide the highest quality service while performing a wide variety of skilled and technical duties in the maintenance, repair, improvement and integration of the District's Electrical Distribution Systems, Control Systems, SCADA Systems, Photovoltaic Systems, HVAC, Microwave Systems, Fire Suppression Systems, Security Systems and Voice Radio communication Systems.

Roles and Responsibilities

The Electrical/SCADA Services Department plays a pivotal role and is responsible for the installation, modification, repair, maintenance, design and support of Electrical, Controls, and SCADA/Microwave installations related to the Potable, Recycled and Waste Water Systems.

Accomplishments in FY 2013-14

- Recycled System SCADA integration of Longfellow Tank, Sun City and Alessandro Boosters.
- Desalter System SCADA integration of 11 Desalter Well sites for Iron Manganese removal facility, as well as the Desalter piping replacement project.
- Installation of Automated Demand Response equipment and programming in support of the plant SCADA replacement project. Power usage from the 16 enrolled sites is now viewable on SCADA.
- Replaced over 2,000 feet of conduit in order to repair damaged fiber at PVRWRF. This fiber is critical for SCADA and I.S. communications to Sun City.
- ♦ Winchester Ponds Installed new Variable Frequency Drive for Caisson # 3 and reworked existing transfer switch and conduit.
- OMC Installed outlets and lighting for garden center project.
- ♦ Dissipator Citric Acid Install Installed 2 new VFDs, control panels, and all other electrical required for the new process.
- East Holland Tower Installation of new 120-foot communications tower and shelter. New equipment racks have been installed in shelter for both IS and SCADA communications equipment.
- Winchester Lift Removal and replacement of three HVAC assemblies. The units were deteriorated from H2S. The new units have special coatings added to the coils.
- ♦ Arc Flash Mitigation Installed circuit breakers and safety barriers to reduce arc flash exposures at Sun City, Winchester, and Morton Street Lifts.
- Replacement of HVAC units at MVRWRF and TVRWRF. The units were deteriorated from H2S. The new units have special coatings added to the coils.

Goals and Objectives for FY 2014-15 and FY 2015-16

- Design and build a new Microwave SCADA back-bone.
- SCADA system upgrade at Perris Filtration, Hemet Desalination, and the Menifee and Perris Desalination Plants.
- ♦ Winchester Lift Replace all three Variable Frequency Drives.
- ◆ Desalter Wells (81 thru 85) Install filters on each VFD to reduce power consumption.
- Arc Flash Hazard Mitigate risk at all sites currently identified as "Dangerous".
- Rancho Club Replace the reduced voltage starters on pumps 3 & 4 with VFDs.

FIELD SERVICES DEPARTMENT

Mission Statement

The mission of Field Services is to provide quality, efficient maintenance and repair services that support the District's infrastructure, facilities, and assets in a safe, cost effective, and environmentally responsible manner.

Roles and Responsibilities

The Field Services Department is responsible for the repair of the District's water and recycled water pipeline distribution systems. The department is also responsible for the maintenance, repair, improvements, and inspection of the District's facility grounds, buildings, water storage tanks, and recycled water storage ponds.

Accomplishments in FY 2013-14

- ♦ Maintained 272 sites, including new sites; the District hasn't been out of compliance in any city in which we own vacant property.
- ♦ Installed emergency HDPE tie-in from Wells 83 and 84 to Trumble Pond.
- Installation of various motor and engine bases throughout the District.
- Consistently over 95% compliant on our safety training as well as keeping up with the scheduled work.
- Built oil storage shed and cover for Hemet Filtration.
- Re-roofed nine large buildings.
- Case Road rectifier building.
- Installed new manifold at Good Hope Booster II.

Goals and Objectives for FY 2014-15 and FY 2015-16

- Attempt to control overtime by using it for emergency repairs only. Will also look at some standing weekend overtime work and have it scheduled to remove the overtime aspect of the job.
- ♦ Keep PM Success above 90% or greater.
- Paint four tanks this fiscal year.
- Continue to upgrade the OMC/AC asphalt in the parking areas.
- Consistently stay within our budget guidelines.
- Begin Phase II of ADA Compliance Retrofit project.
- Complete changing over 25+ orangeburg service change-outs.

Modified 02/13/14

WATER OPERATIONS DEPARTMENT

Mission Statement

The mission of the Water Operations Division is to provide safe and reliable water services in an efficient and responsible manner.

Roles and Responsibilities

The Water Operations Department is comprised of five groups: Water Operations Administration; Integrated Operations Center; Water Production, Water Distribution and Recycled Water Operations. The Water Operations Department is responsible for treatment and delivery of potable water, delivery of recycled water, operation of the brine disposal activities, management of the Integrated Operations Center (IOC), and management of the cross-connection program.

Accomplishments in FY 2013-14

- Energy Management: Completed audit of the Perris South System including re-evaluation of the overall constraints for the Perris South Supply. Audit of assets, indicate one crucial issue, this one crucial item being the deficiency of storage within the system. Identified the need for an updated and calibrated hydraulic model would be very useful to provide to Derceto, Aquadapt verifies each and every pump schedule (1/2 hour intervals) against the embedded hydraulic model.
- Facilities brought on line in the Recycled System: Sun City pump station, Alessandro pond pump station and Longfellow Tank. These facilities will enhance peak supply availability and higher customer service level.
- Water Quality: There were exactly 2000 routine (DPH) samples taken from 7/1/13 until 2/25/14 in which only two were tested positive for coliform. Water Operations was challenged to reduce TTHM's from the Old Elsinore Sample Station where it was projected that EMWD would exceed MCL's of 100 ppb. Operations made various system changes while implementing strategies to reduce Disinfection By-products which current averages are at 22 ppb. Our goal is to install ammonia injection systems at Well 56 and 59 to further reduce TTHM, as well as increase local chlorine residuals.
- Valve Exercising: System reliability was enhanced by exercising 2,850 strategic valves.
- Annual Production Targets: Met annual well production target of 16,000 AF. Desalter production is below target due to delays in the completion of the iron/manganese removal facilities and pipe replacement.
- Recycled Water Demand Management: Successfully implemented a Recycled Water Demand Management Plan which had been developed consistent with the Board's direction.

Goals and Objectives for FY 2014-2015

- Recycled Water Meter Data: Operations is working with IS to refine reports and data in the Oracle Business Intelligence Recycled Water Database to allow for tracking and reporting of daily recycled water usage.
- Water Loss Control Program: Pursue external funding sources to implement a pressure zone based water loss control and monitoring program.
- Brine Concentration Management: Complete pilot evaluation of GE's AquaSel Brine Management Technology.
- Facilities Database: Complete Development of the "facilities database".
- Water Supply: Due to the lower than normal precipitation our goals are to reduce State Project Water (SPW) to the extent possible.

Goals and Objectives for FY 2015-2016

- Complete the 2 year water loss control program.
- Purse additional pilot testing and full scale implementation of brine concentration technologies.

Department Summary

WATER RECLAMATION

Mission Statement

The mission of the Water Reclamation Department is to provide safe, reliable and cost effective treatment of wastewater resulting in high quality tertiary recycled water for maximum beneficial reuse.

Roles and Responsibilities

The department is responsible for the daily operation of four regional water reclamation facilities (i.e. wastewater treatment plants) serving the communities of Hemet, San Jacinto, Moreno Valley, Menifee, Perris, Sun City, Murrieta, and Temecula. Annually, the four plants treat approximately 16 billion gallons of wastewater which yields approximately 36,000 acre-feet of tertiary recycled water available for sale to municipal, industrial, and agricultural customers for beneficial reuse.

Accomplishments in FY 2013-14

- ♦ Temecula Valley Regional Water Reclamation Facility (TVRWRF) 18 MGD Upgrade: Staff at the TVRWRF recently began operating two new 1.2 MG anaerobic digesters which increases the overall sludge treatment capacity.
- Perris Valley Regional Water Reclamation Facility (PVRWRF) Plant 2: Staff at the PVRWRF has just started up the redesigned Plant 2 which provides for biological nutrient removal (BNR) and has a capacity of 8.8 MGD.
- Overtime Reductions: The Water Reclamation Department has reduced overtime in each of the last three years by approximately 35 percent saving over \$200,000 in labor costs.
- Treated Effluent Water Quality: Modifications to operational processes and sampling methods have resulted in a significant improvement in water quality reported to the California Department of Water Resources.
- ♦ Improved Recycled Water Production: Staff has implemented operational changes to improve reliability. As a result, recycled water production reliability has increased approximately nine percent since the program's implementation.
- Data Management: The District's four regional water reclamation facilities are heavily regulated by the federal, state, and local regulatory agencies. Staff continues to implement a new data management software application called ADAM (Automated Data Approval Module) for reporting voluminous amounts of operational data to the agencies. The software interfaces directly with each plant's supervisory control and data acquisition system and provides a graphical interface for data validation.

Goals and Objectives for FY 2014-15

- Startup and operate the new wastewater treatment facilities at the San Jacinto Valley Regional Water Reclamation Facility.
- Startup and operate the new tertiary effluent pump station at the San Jacinto Valley Regional Water Reclamation Facility
- Operation of the new solids treatment facilities at Temecula Valley Regional Water Reclamation Facility.
- Startup and operate the newly modified Plant 2 at the Perris Valley Regional Water Reclamation Facility.
- Preserve recent gains in reduced overtime, improved water quality, recycled water production reliability.

Goals and Objectives for FY 2015-16

- Startup and operate the new solar array systems at the four treatments plants.
- Reduce chemical costs by improving upstream wastewater treatment processes.
- Reduce biosolids disposal costs five percent by improving dewatering process performance.
- Strive to offset increases in electrical power rates by maximizing the use of renewable energy sources.
- Complete implementation of the new job safety analysis program.

Budget Constraints FY 2014-15 and Significant Changes from Prior Year

• There are no budget constraints or significant changes from prior year.

Budget Constraints FY 2015-16 and Significant Changes from Prior Year

• There are no budget constraints or significant changes from prior year.

Position Changes

For FY 2014-15, one new Wastewater Treatment Operator will be requested for the San Jacinto Regional Water Reclamation Facility, which will have completed the expansion to 14 MGD. This position will be supplemented by transferring another operator from the Perris Valley Regional Water Reclamation Facility to the San Jacinto plant thereby providing one additional staff member on each crew. For FY 2015-16, there are no changes in the number of positions.

OPERATING FIXED ASSETS

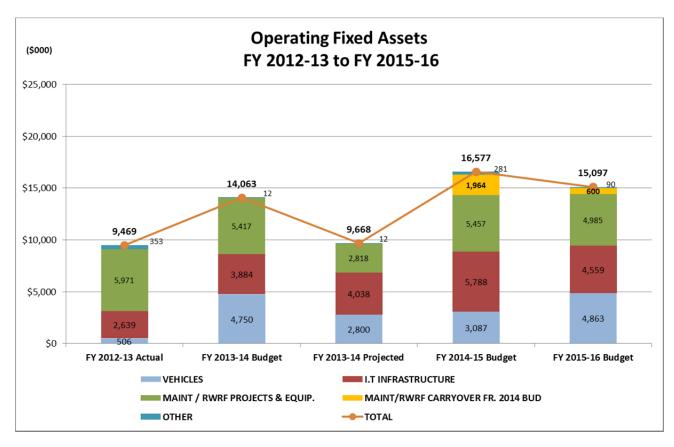

Defining Operating Fixed Assets vs. Capital Improvement Program (CIP)

The District's <u>operating fixed assets</u> are comprised of assets acquired for the normal conduct of operations that will benefit more than a single fiscal period. These assets typically do not require planning or permitting and have shorter useful lives than assets in the Capital Improvement Program.

Conversely, the <u>capital improvement program</u> is comprised of the District's facility needs that cover a five-year period. The CIP includes long-term capital outlay investment in plants, pipelines, conveyance system, land, facilities, and other significant improvements.

Operating Fixed Asset Summary

The chart below shows a four year trend of operating fixed assets. The increase in the FY 2014-15 and FY 2015-16 budgets are driven primarily by requirements in both Maintenance and IT Infrastructure projects.

Maintenance Projects and Equipment

The budget for maintenance projects and equipment in FY 2014-15 and FY 2015-16 is \$7.4 million and \$5.6 million respectively. Some of the larger projects include: a) TVRWRF Noxtech Biogas engine installation - \$0.7 million; b) SJRWRF DCL Siloxane removal system - \$0.5 million; c) Water Storage painting (4 tanks) - \$0.5 million in both FY 2014-15 and FY 2015-16; d) Winchester Recycled Water pipeline air vac replacement - \$0.4 million in FY 2014-15 and \$0.4 million in FY 2015-16; e) Morton Lift Station pump replacements - \$0.3 million and \$0.2 million in FY 2014-15 and FY 2015-16 respectively.

Information Technology Infrastructure

The estimated information technology asset purchases in FY 2014-15 and FY 2015-16 are \$5.8 million and \$4.6 million respectively. Purchases include software replacement of the HR/Payroll/Benefits system totalling \$2.1 million in FY 2014-15 and \$1.4 million in FY 2015-16. Additionally, District-wide replacement of communication network devices totalling \$1.3 million is

budgeted in FY 2014-15. Also, software upgrades for the 'Maximo' inventory management system will cost \$0.5 million in FY 2014-15 and \$1.2 million in FY 2015-16.

Vehicles & Equipment

The age of vehicles to be replaced in FY 2014-15 and FY 2015-16 is roughly 13 years. The estimated vehicle and equipment expenditures for both fiscal years are \$3.1 million and \$4.9 million respectively.

The \$3.1 million in FY 2014-15 is comprised of 52 light/medium duty vehicles at a cost of \$2.1 million, 2 heavy duty vehicles with a cost of \$0.1 million, and 18 tractors/other equipment totaling \$0.9 million.

The \$4.9 million for FY 2015-16 includes \$4.5 million of emergency and portable generators to replace diesel-powered units that do not meet air quality regulatory requirements due to the age of the units. These generators are necessary in case power outages occur at the District's pumps and lift stations facilities. The remaining \$0.4 million is made up of 9 light/medium duty vehicles at a cost of \$0.3 million and 1 tractor/other equipment totalling \$0.1 million.

CAPITAL IMPROVEMENT PROGRAM

The table below shows a five-year summary of the budgeted capital improvement program ("CIP"). Generally, the CIP includes projects related to infrastructure such as plants, pipelines, conveyance, land, facilities and other significant improvements. Projects are subject to change due to changing priorities, land acquisition, and regulatory changes.

Five Year Capital Improvement Program Summary

| (\$000) | | | Year 1 | | | Year 2 | | | Year 3 | | Year 4 | | Year 5 | | | |

FY 2014-15 Projected Budget Detail

Insert table

FY 2015-16 Projected Budget Detail

Insert table

SPECIAL PROJECTS AND STUDIES

Special projects and studies are primarily driven by the need for planning and analysis in the management and development of water resources and sewer resources. These costs are included in other non-operating expense.

CONSERVATION PROJECTS

Conservation projects promote responsible use of limited water resources. These costs are also included in other non-operating expense.

SPECIAL PROJECTS & STUDIES FISCAL YEARS 2014-15 & 2015-16 BUDGET

| Branch / Department / Item Description | | Y 2014-15 | F | Y 2015-16 |
|--|----|-----------|----|-----------|
