

Job Description

Please note this job description is not designed to cover or contain a comprehensive listing of activities, duties or responsibilities that are required of the employee for this job.

Job title	Senior Director of Water Resources Planning
------------------	---

GENERAL PURPOSE

Under policy direction from the Assistant General Manager of Planning, Engineering, and Construction, plans, organizes, manages, and evaluates the activities, operations, and services of the following departments: Groundwater Management and Facilities Planning, Water Supply and Planning, and Environmental and Regulatory Compliance; ensures effective and efficient high-quality work in the assigned departments programs and services; and performs related duties as assigned.

DISTINGUISHING CHARACTERISTICS

This is a department director classification that oversees, directs, and participates in all activities of the Groundwater Management and Facilities Planning Department, Water Supply and Planning Department, and the environmental and Regulatory Compliance Department, including short- and long-term planning as well as development and administration of departmental policies, procedures, and services. This class provides assistance to the Assistant General Manager of Planning, Engineering, and Construction in a variety of administrative, coordinative, analytical, and liaison capacities. Successful performance of the work requires knowledge of public policy, District functions and activities, including the role of the District's Board of Directors, and the ability to develop, oversee, and implement projects and programs in a variety of areas. Responsibilities include coordinating the activities of the assigned departments with those of other departments and outside agencies and managing and overseeing the complex and varied functions of the department. The incumbent is accountable for accomplishing departmental planning and operational goals and objectives for all assigned departments, and for furthering District goals and objectives within general policy guidelines.

SUPERVISION RECEIVED AND EXERCISED

Receives policy direction from the Assistant General Manager of Planning, Engineering, and Construction. Exercises direct supervision over managerial, supervisory, professional, technical, and administrative support staff through subordinate levels of supervision.

TYPICAL DUTIES AND RESPONSIBILITIES

The duties listed below are intended only as illustrations of the various types of work that may be performed. The omission of specific statements of duties does not exclude them from the position if the work is similar, related or a logical assignment to this position.

- Plans, organizes, controls, integrates, and evaluates the work of the Groundwater Management and Facilities Planning, Water Supply and Planning, and Environmental and Regulatory Compliance Departments to ensure services comply with the policies and strategic direction set by the General Manager, Board of Directors, and all applicable laws and regulations.
- With management team, develops, implements, and monitors short- and long-term plans, goals, and objectives focused on achieving the District's mission, Strategic Plan, and Board priorities.
- Directs the development of assigned department operating and capital improvement budgets; monitors implementation of adopted budgets.
- Directs the development, implementation, and evaluation of plans, programs, projects, policies, systems, and procedures to achieve short- and long-term District-wide goals, objectives, and work standards within assigned areas of accountability.
- Plans and evaluates performance of assigned directors, managers and staff; establishes performance requirements and personal development targets; regularly monitors performance and provides coaching for performance improvement and development; provides compensation and other rewards to recognize performance; takes disciplinary action, up to and including termination, to address performance deficiencies, in accordance with the District's personnel rules, policies, and labor contract provisions where applicable.
- Provides leadership and works with assigned management team to develop and retain highly competent, customer-service oriented staff through selection, compensation, training, and day-to-day management practices which support the District's mission, strategic plan, objectives, and values.
- Directs and coordinates the implementation of a variety of District strategic plans, master plans, and projects, relating to current and long-range District capital improvement and facilities expansion needs; plans, directs, and coordinates planning, project management, and regulatory compliance activities for a variety of projects, including the preparation of plans, specifications, designs, estimates, environmental documentation, regulatory requirements and schedules; coordinates project monitoring programs; coordinates construction administration activities and engineering records management.

- Participates in assessing regional, industry, and District service-area customer needs and ensures assigned departments objectives and priorities are focused on meeting those needs effectively, efficiently, and with high-quality service.
- Interprets General Manager, Deputy General Manager, Assistant General Manager, and Board of Director instructions and requests; makes interpretations of District ordinances, policies, and applicable laws and regulations to ensure compliance within assigned areas of accountability.
- Participates in the analysis of proposed legislation and regulation; participates in industry and intergovernmental activities to influence legislative and regulatory change consistent with the District's interests and needs.
- Represents the District as requested or assigned in dealings with constituent agencies in the District's service area, the Metropolitan Water District, other industry and governmental agencies, and professional organizations.
- Participates in major negotiations with contractors, consultants, developers, vendors, and other public agencies.
- May act for the Assistant General Manager in that individual's absence.
- Participates in regional, state, and national water, water reclamation, and other professional meetings and conferences to stay abreast of trends and technology related to District operations, particularly in areas of assigned accountability.
- Ensures staff observe and comply with all District and mandated safety rules, regulations, and protocols.
- Performs related duties as assigned.

Continuous Improvement-Related Duties:

- Applies Continuous Improvement principles in the deployment of branch and department business plans, processes and performance measures, ensuring that they align with District's strategies and operational plans.
- Participates in organizational performance assessments and the system of continuous improvements and effectively integrates and evaluates the linkages between the District's key value creation and support processes and related key performance indices.
- Ensures effectiveness of the business processes undertaken by the division, department, or branch.
- Defines customer service segments being served and establishes processes to obtain feedback to improve performance.
- Develops, maintains, and utilizes departmental performance indicators in making decisions.

- Establishes performance criteria for assigned staff.
- Ensures a thorough understanding of the Strategic Planning Cycle with each individual's responsibility associated with the cycle.
- The incumbent, while exercising his/her authority, shall abide by and promote the District's values and beliefs and adhere to the District's ethics policy.

REQUIRED QUALIFICATIONS

Knowledge of:

- Principles and practices of employee supervision, including work planning, assignment review and evaluation, discipline, and the training of staff in work procedures.
- Principles and practices of leadership.
- Organization and management practices as applied to the development, analysis, and evaluation of programs, policies, and operational needs of the assigned area of responsibility.
- Principles and techniques for working with groups and fostering effective team interaction to ensure teamwork is conducted smoothly.
- Organizational function, role, and authority of a public agency Board of Directors.
- Federal, state, and local laws, regulations, and court decisions applicable to assigned areas of responsibility.
- Principles and practices of budgeting, purchasing, and maintenance of public records.
- Principles, theories, and methods of groundwater hydrology.
- Principles and practices of watershed management.
- Principles and practices of water resources planning, economics, and financial analyses.
- Theory, principles, practices, and techniques of civil engineering as they apply to a large, complex water and wastewater system.
- Research methods and analysis techniques.
- Principles and practices of sound business communication.
- The District's personnel policies and labor contract provisions.
- District and mandated safety rules, regulations, and protocols.
- Techniques for providing a high level of customer service by effectively dealing with the public, vendors, contractors, and District Staff.
- The structure and content of the English language, including the meaning and spelling of words, rules of composition, and grammar.
- Modern equipment and communication tools used for business functions and program, project, and task coordination, including computers and software programs relevant to work performed.

Continuous Improvement Knowledge:

- The core values, concepts, and framework of continuous improvement criteria, including the principles of management by fact, and organizational and personal learning.
- The means of developing alignment between strategic goals and individual performance standards.
- Practices of process mapping (control).
- Practices of structured problem solving.
- The Strategic Planning Cycle and the various responsibilities within that cycle.

Ability to:

- Plan, direct, oversee and manage the staff and services in a comprehensive water resources and facilities planning, groundwater management, and environmental compliance department.
- Select and supervise staff, provide training and development opportunities, ensure work is performed effectively, and evaluate performance in an objective and positive manner.
- Develop and implement goals, objectives, practices, policies, procedures, and work standards.
- Provide administrative and professional leadership and direction for the District and the assigned departments.
- Plan, analyze, and make sound recommendations on complex management and administrative issues.
- Plan and direct the planning and research functions required by a large, complex water utility.
- Understand, interpret, explain, and apply District policy and procedures governing assigned areas of responsibility.
- Present proposals and recommendations clearly and logically in public meetings.
- Represent the District effectively in negotiations.
- Develop and implement appropriate procedures and controls.
- Prepare clear, concise, and comprehensive correspondence, reports, studies, and other written materials.
- Exercise sound, expert independent judgment within general policy guidelines.
- Understand, interpret, and apply all pertinent laws, codes, regulations, policies, and procedures, and standards relevant to work performed.
- Effectively represent the assigned departments and the District in meetings with governmental agencies; community groups; various business, professional, and regulatory organizations; and in meetings with individuals.
- Independently organize, work, set priorities, meet critical deadlines, and follow-up on assignments.

- Use tact, initiative, prudence, and independent judgment within general policy, procedural, and legal guidelines.
- Effectively use computer systems, software applications relevant to work performed, and modern business equipment to perform a variety of work tasks.
- Communicate clearly and concisely, both orally and in writing, using appropriate English grammar and syntax.
- Establish, maintain, and foster positive and effective working relationships with those contacted in the course of work.

Continuous Improvement Abilities:

- Develop a systems perspective for managing department operations and its key processes to achieve results.
- To use the seven continuous improvement categories and the core values as building blocks for department operations.
- Define and explain key processes and process requirements within the department.
- Develop and deploy strategic plan elements and key performance measures consistent with District goals.
- Develop and maintain continuous improvement in all areas of operations.
- Develop and monitor performance standards for all divisions within the department.
- Ensure department goals and objectives are aligned with other departments, branches, and the District as a whole.
- Track and monitor department performance.
- Make sound decisions based on departmental performance indicators.

Experience:

Any combination of experience and education that provides the required knowledge and abilities is qualifying, along with the specific licenses/certifications as outlined below:

- Ten (10) years of progressively responsible experience in long-term water resources planning, water resources management, and administration of capital improvement plans, of which five (5) years should be in a management capacity.

Education:

- Equivalent to a bachelor's degree from an accredited college or university with major coursework in urban or regional planning, civil engineering, or a closely related field. Master's degree is desirable.

Licenses/Certifications:

- A valid California driver's license and the ability to maintain insurability under the District's Vehicle Insurance Policy.
- Certificate of registration as a Professional Engineer issued by the State of California is highly desirable.

PHYSICAL DEMANDS

The physical demands described here are representative of those that must be met by employees to successfully perform the essential functions of this class. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Must possess mobility to work in a standard office setting and use standard office equipment, including a computer; vision to read printed materials and a computer screen; to operate a motor vehicle and visit various District sites; and hearing and speech to communicate in person and over the telephone. This is primarily a sedentary office classification although standing in work areas and walking between work areas may be required. Finger dexterity is needed to access, enter, and retrieve data using a computer keyboard or calculator and to operate standard office equipment. Positions in this classification occasionally bend, stoop, kneel, reach, push, and pull drawers open and closed to retrieve and file information. Employees must possess the ability to lift, carry, push, and pull materials and objects up to 25 pounds.

WORK ENVIRONMENT

The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this class. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Employees work in an office environment with moderate noise levels, controlled temperature conditions, and no direct exposure to hazardous physical substances. Employees may interact with upset staff and/or public and private representatives in interpreting and enforcing departmental policies and procedures.
