The Hemet/San Jacinto Groundwater Management Area Annual Report is the result of a cooperative effort between private and public groundwater producers in the Hemet-San Jacinto Watermaster Area. The State of California, Department of Water Resources, facilitated the development of the Management Plan and their efforts are greatly appreciated. The Councils and Boards for the Cities of Hemet and San Jacinto, Lake Hemet Municipal Water District, and Eastern Municipal Water District are recognized for their vision, leadership, and teamwork during the implementation of the Management Plan and formation of the Hemet-San Jacinto Watermaster. Special thanks and deep appreciation are extended to all groundwater producers who participated in the Groundwater Quality, Groundwater Level, and Groundwater Extraction Monitoring Programs, without their cooperation, this report would not be possible. Thanks to Brian J. Powell P.E., Rachel Gray, Carl Reber, Matthew Wedeking P.E., Steve Shockey and Larry Chilson for collecting and compiling the data, and drafting the 2018 Annual Report.
